INTRODUCTION.

To Patrons and Horticultural Friends:

IT is with pleasure that we present you with our New Catalogue of 1904, same being our *tenth anniversary* since starting the Universal Horticultural Establishment at South Orange, N. J., which has been developed from a wilderness to the most complete Nursery in America in that space of time. It now consists of thirty-one greenhouses, containing the largest and most varied collection of

Orchids, Palms, Ferns, Foliage and Flowering Plants

in the country. Also a large acreage devoted to the culture of

Evergreens, Trees, Shrubs and Hardy Herbaceous Plants

admitted to be the most complete in the country. This catalogue contains only the leading varieties in stock of each special branch. Customers desiring *complete lists* of any class of plants not found here will be furnished with same on application. *The Novelties* and Specialties will be found in a separate pamphlet, where all the meritorious varieties are listed. While we draw your attention to all the different branches of our establishment, we especially desire you to read our notes on *Landscape Gardening*, and adopt our recommendation if you desire beautiful surroundings of your home. *Visitors* are always welcome at our Nurseries, so that they can see for themselves the great variety, quantity and quality of the stock, as it is impossible to convey an adequate idea, even in this comprehensive catalogue.

The Nurseries are situated on the D., L. & W. R.R., adjoining the depot of South Orange. There are 83 trains daily, so visitors will only have a few minutes to wait, trains being so frequent. There are also electric cars from Newark to South Orange Depot, connecting with the Penn. R.R. and Jersey Central R.R. every ten minutes. Also from Orange to South Orange, connecting with the Erie R.R. Taking it all in all, it is the most accessible nursery in the country.

Landscape Gardening.

THIS is a very important subject, and one that should not be neglected or overlooked, especially when building up a new place.

It means that, with a **good plan**, you can lay out your place to all the advantages it commands naturally, besides making the developing features where the location is disadvantageous. **The roads** and **walks** should be laid out, not only to be practical, but also to be in harmony with everything adjacent.

The proper location of trees and shrubs, and the selection of the most desirable kinds, are very important, for you are planting for the future, and as it takes years for a shrub or tree to grow, you should plant only such as would be desirable and valuable when grown up. The same applies to the location of vegetable, flower, fruit, rock, or wild garden borders or flower beds.

The grouping or massing of either trees, shrubs, plants, or bulbs, to produce certain effects at special seasons, either in foliage, flower, or fruit, can only be successfully accomplished by having full knowledge of the habits and character of such plants.

Many unsightly corners and spaces could be not only hidden, but actually made beautiful. Thus, outside the general flower garden, barren rocks and stumps of trees can be covered with luxuriant growth.

Dry and sandy hills, where even grass refuses to grow, with proper selection can be made as beautiful as where the soil is rich, while marshes can be turned into handsome objects, and ponds covered with showy water plants. In one word, it is the knowledge of the habits of plants and their adaptability to certain locations that brings the desired success.

Location and designing greenhouses, graperies, pits or frames on a place are also very important; so are the proper details in the construction of greenhouses, which are generally left to architects, who do not take into consideration the practical points of the greenhouse or conservatory.

Do not lay out your place without a landscape gardener, any more than you would build a house without an architect; and you cannot do better than consult

Yours truly,

N the preceding pages we illustrate two plans, one showing the ornamentation of the immediate surroundings of a large mansion, where the design as well as the class of plants selected is to harmonize with the architecture.

The other shows three different styles of Landscape Architecture, viz.: **The Formal Garden**, so popular at the present time, **The Old-Fashioned Garden**, with its informal beds of old time favorite flowers, and the **Wild Garden**, where, after the roads and paths are made, the **Landscape Gardener**, with his experience, assists nature in perfecting a pleasing and natural effect.

The Landscape Architect should be consulted regarding the proper site for the house, roads, etc., as they should be finished before the grading, thus avoiding unnecessary labor and cost.

As we combine both **theoretical** and **practical knowledge**, our patrons will find it greatly to their advantage to place the improvement of their grounds in our hands, as they will profit by our large experience in the economical and practical treatment of the work.

Next to the plants the most important thing is the **specifications**, that is, the selection of the kind of stock to be used for the ornamentation of same, and it is especially here where the value of a practical landscape gardener is felt. While a good many people without practical knowledge can draw acceptable plans, yet it is only the practical man that can make the selection of the stock, knowing its habit, its ultimate height and development, also the adaptability of the soil, climate, etc., as no two places can be treated alike.

If the residence is intended to be occupied during a certain season, then such plants as predominate at that season should be used. If, on the other hand, the house is an all-year residence, then the effect and plants that are used should be such as to give a continued attractiveness all through the season.

We make a specialty and carry in stock all plants for this kind of work, and being practical men, thoroughly acquainted with the habits, height, color, different growths and flowering periods of these plants, we are in a position to intelligently make plantings where an immediate effect is produced and the future not marred.

There is nothing more unsightly than a mass of planting done haphazard, where, instead of a plant being placed in a position to help or harmonize with others, they are jammed together irrespective of their growth, color, or height.

We would be pleased to hear from parties contemplating any improvements on their places, be they new or old, and will **furnish advice, submit plans** and **specifications** for same, carrying out and completing the work in a satisfactory manner; thus avoiding costly and irreparable mistakes that would be committed without proper advice.

We recommend first class **Gardeners** or **Superintendents** to take charge of your grounds and **greenhouses**, practical and trustworthy men that we know personally; if in need of any, write us with particulars.

BANK OF RHODODENDRON MAXIMUM (at South Orange). For description see opposite, page 7.

of the preceding pages we illustrate two plans, one showing the arrangement of the immediate surroundings of a

exit to the bank of the ground and greenhouse, etc. and probably that we know personally; if in need of any write us with particular

PLANTS OF SPECIAL MERIT FOR EVERGREEN LANDSCAPE EFFECT.

Following our suggestions on the former pages we here submit a few plants of extraordinary merit, especially where evergreen effects are desired, not only for producing solid masses, but also as a substitute for grass, that is, low plants which flourish well under trying conditions where grass will not grow, forming an evergreen carpet supplemented in the spring and summer months with solid masses of flowers.

RHODODENDRON MAXIMUM.

For large massing where a broad, bold foliage effect is desired this shrub has no superior. Its perfect hardiness in any climate and under any conditions, thriving well in the full sun as well as in the densest shade underneath trees, evergreen, or deciduous, coupled with its comparatively low cost, being obtainable in large sizes from three to six feet in height and diameter, gives an opportunity to produce at the planting an immediate effect which otherwise would take years to accomplish with small sized plants. Our stock of this plant is admitted to be the best in the country, growing isolated in the full sun. The plants are very bushy, well set in bud, and lift with a fine mass of roots, and, being handled by experienced men in lifting and packing, always insure good results. We would be pleased to quote prices in any quantity or size of plants. Special price of assorted sizes in carload lots.

RHODODENDRON CATAWBIENSE.

With similar qualities and recommendations of the above, but having the advantage of larger and brighter colored flowers which are produced a month earlier than the Maximum. We can also supply fine specimens of this valuable plant from three to six feet in height. Prices and particulars given on application.

KALMIA LATIFOLIA.

Another garden plant, for similar purposes as the Rhododendrons, with smaller foliage and having large clusters of showy flowers varying from pure white to deep rose color, lasting a long time in perfection. Our stock of this consists of fine shaped bushy plants, from one to five feet in height and diameter, which we would be pleased to supply from 50c. to \$5.00 each. Special price in carload lots.

ANDROMEDA CATESBAEII.

For fronting of Rhododendron beds or for planting under trees in dense shade this plant has no equal. It grows from two to three feet high, with long arching branches clothed with lanceolate glossy green leaves changing in the autumn to bronzy crimson, while in the spring from each axil of the leaf hang drooping spikes of white flowers resembling Lily of the Valley. Strong plants, 35c. to 75c. each. Special price in large quantities.

AZALEA AMOENA.

A fine plant for finishing groups of Rhododendrons or beds of other evergreen foliage. Its growth is dwarf and dense, well furnished with small, oblong foliage, which changes to a bronze crimson color in the autumn, while in spring the whole plant is covered with a mass of crimson flowers. Price, according to size, from 50c. to \$3.00 each.

BUXUS (Boxwood).

This old-fashioned plant has become such a favorite recently that it demands our special notice. It is, however, too well known to need any description. The small, dwarf box is used for edging in old-fashioned formal and Italian gardens, while large plants, sometimes a hundred years old, are used as isolated specimens, or for topiary affects, as they can be trained or trimmed into any shape desired. We have an enormous stock of plants, varying in size from 3 inches to 12 feet. Prices on application.

MASS OF DIANTHUS PLUMARIUS PLENUS (Scotch Pinks).
For description see page 11.

PACHYSANDRA TERMINALIS.
The best Evergreen ground cover. For description see opposite, page 9.

ABIES CANADENSIS (Hemlock).

In singling out this variety among hundreds of others in stock, we do so on account of the extraordinary merit and the many different uses it can be put to, as well as the beauty of the plant. Naturally of lofty habit, it can be trained and kept to any size or shape. This variety can stand more shade than any other conifer. The growth is compact, with light, graceful drooping branches and delicate bright green foliage, which renders it most useful as a specimen tree for massing, banking, screens, or hedging, either high or low, as by proper pruning this plant can be kept to any height, rendering it valuable for formal or topiary effects.

Price: 2 to 3 ft., 45c.; 3 to 4 ft., 75c.; 4 to 5 ft., \$1.00; 5 to 6 ft., \$1.75; 6 to 7 ft., \$3.75; 7 to 8 ft., \$7.50.

JUNIPERUS COMMUNIS.

For planting on dry, hilly grounds, especially where the soil is poor and rocky, this plant finds its congenial home. The plant is of low and spreading habit, growing from one to three feet in height and forming masses of bluish green foliage. This plant is perfectly hardy and well adapted for seashore planting. Fine stock, from 45c. to \$1.00 each.

TAXUS CANADENSIS (American Yew, or Ground Hemlock).

Opposite in every instance to the uses to which the Juniper is adapted. This plant thrives in dense shade and wet ground. The habit is prostrate, covering the ground with running branches, covered with glossy, deep green foliage and bright globular red berries. Nice, strong plants, 75c. to \$1.00 each.

YUCCA FILAMENTOSA MAXIMA.

A greatly improved form of the common type. The foliage is twice as long as the ordinary variety, of a beautiful, glaucous green color. When flowering it throws a branched stem seven to eight feet high, bearing hundreds of large, white, bell shaped lily-like flowers. This plant is especially adapted for sandy, rocky, or poor ground, forming masses of evergreen sub-tropical foliage and masses of flowers. Fine, strong plants, 35c. each; \$3.50 per doz.; \$25.00 per 100.

PACHYSANDRA TERMINALIS.

Ten years' experimenting with this plant has convinced us that it is the finest evergreen ground cover in existence. Thriving in the densest of shade, in any soil or situation, and quickly covering the ground with a uniform close growth. The lustrous bright green leaves are arranged in a whorl or rosette on stems four to six inches high. This plant stands the most rigorous winter and the quick changes of our climate without the slightest damage to its bright-green foliage, which retains its perfection and brilliancy all the year round, and not subject to injury from any insect. The finest substitute for lawns, covering shaded places where grass refuses to grow. Nice plants, 25c. each; \$2.50 per doz.; \$15.00 per 100.

EUONYMUS RADICANS.

A trailing vine with ovate coriaceous green foliage, covering the ground, attaching itself to trees, stumps, rocks, walls, or any object within its range, and flourishing well in the full sun or dense shade. It can be used as an edging in place of Boxwood, and clipped in shape in the same manner. A neat and desirable plant for any of the purposes above named. Fine plants, 15c. each; \$1.50 per doz.; \$8.00 per 100.

EUONYMUS RADICANS VARIEGATA.

Foliage beautifully variegated with white in the mature leaves, while the young growth has a beautiful yellow tinge. Otherwise the habit, uses, and price same as the type.

MANDA'S GOLDEN PRIVET.

MANDA'S GOLDEN PRIVET.

Almost an evergreen. This shrub is of such sterling merit that we must mention it here. The growth is free, bushy, and compact. The closely set green leaves are heavily margined with golden yellow covering the greater part of them. The color holds remarkably well during the season. It does not bleach or burn in the hot sun, and is the only yellow foliaged shrub which holds its perfect coloring in the fall. We do not hesitate to say that this is the finest colored foliage shrub in cultivation. It is perfectly hardy and can be used for any purpose desired, such as an isolated specimen or planted in close proximity to Red Japan Maples; this plant offsets and gives additional color and value to both. It produces a unique effect when planted as a hedge, and can be kept to any size, either high or low. Silver medal awarded by the Massachusetts Horticultural Society, and numerous certificates wherever exhibited.

Young plants, 2 in pot, 15c. each, \$1.50 per dozen, \$10.00 per 100; 1 year old plants, 30c. each, \$3.00 per dozen, \$20.00 per 100; 2 year old plants, 75c. each, \$7.50 per dozen, \$50.00 per 100; 3 year old plants, \$1.00 each, \$10.00 per dozen; 4 year old plants, specimens, \$1.50 each, \$15.00 per dozen.

VERONICA RUPESTRIS.

Another dwarf evergreen plant thriving well in any situation, especially on banks, rocks, and exposed places. This plant forms a bright blue carpet of flowers in May, while the remainder of the year the plant forms a perfect lawn. Strong plants 15c. each, \$1.50 per doz., \$8.00 per hundred.

SEDUM SPURIUM SPLENDENS.

Creeping plants, with whorls of thick, roundish leaves, pale green turning to bronzy purple in the winter months, while in June the plant is covered with yellow flowers. Succeeds well in dry, exposed, or rocky ground, where it makes a good ground cover. Price, 15c. each, \$1.50 per dozen, \$8.00 per 100.

DIANTHUS PLUMARIUS PLENUS (Scotch Pink).

Forming compact tufts of gray foliage during the entire year, while in May and June quantities of double pink or white flowers are produced that are very fragrant and useful for cutting purposes. A most useful plant for bordering beds in place of sod or masses in open, sunny situations. Price, 15c. each, \$1.50 per dozen, \$8.00 per 100.

ACHILLEA TOMENTOSA.

A dwarf plant. Keeps its finely cut green foliage through the winter, while in early spring the large heads of yellow flowers, 6 inches high, make a solid mass, lasting a long time in perfection. Well suited for open and dry situations, for banks, rockworks, or massing strong plants. Price, 15c. each, \$1.50 per dozen, \$8.00 per 100.

AJUGA REPTANS.

Covering the ground closely with its ovate, bright green foliage, and thriving in dense shade, this plant can be recommended for massing in shady places where grass refuses to grow, thus making it a bright green spot all the year around, with a mass of light pink flowers in spring. Strong plants 15c. each, \$1.50 per dozen, \$8.00 per 100.

ARMERIA MARITIMA.

Compact tufts of evergreen foliage, with profusion of light pink flowers 6 inches high, and lasting long in perfection. This plant is very valuable for edging walks or paths. When massed will produce a strong effect. Valuable garden plant. Price, 15c. each, \$1.50 per dozen, \$8.00 per 100.

ROSE EVERGREEN GEM.

One of the quickest growing plants for covering large spaces, as it makes a growth of from five to fifteen feet in a season, covering the ground with its prostrate branches thickly set with bronze green foliage, supplemented with double fragrant flowers in June. Strong pot grown plants, 35c. to 75c each, according to size.

VINCA MINOR.

A well known dwarf plant, covering the ground closely with bright green foliage and blue flowers, thriving well in deep shade. Strong plants, 15c. each; \$1.50 per doz.; \$8.00 per 100.

PHLOX SUBULATA (Moss Pink).

Compact growing plant, forming masses of small, light green foliage and carpets of white or pink flowers. A good substitute for edging where sod is used, or for lawns, banks, or other places where low, green plants are desired in place of grass. Strong plants, 15c. each; \$1.50 per doz.; \$8.00 per 100.

THYMUS SERPHYLLUM (Alpine Thyme).

A remarkably pretty plant, closely covering the ground with its small, green foliage, which turns a beautiful purple in the winter. Flowering in early summer, making a dense pink carpet with its flowers, three inches in height. Excellent plant for covering dry banks or where masses of low growing evergreen plants are desired. Strong plants, 15c. each; \$1.50 per doz.; \$8.00 per 100.

SPECIMEN BLUE SPRUCE (*Picea pungens glauca*).

For description see page 15.

CONIFERAE (Evergreen or Resinous Trees.)

One of the grandest classes of vegetation, varying from dwarf prostrate shrubs rising barely a foot above the ground to the largest and most majestic trees known, growing to the height of three hundred and fifty feet. With two or three exceptions they are evergreen, and on that account are especially desirable where evergreen and massive effect is desired. Having such a large range of form and height, they can be used for almost any purpose, such as isolated specimens, groups, beds, hedges, and also as wind screens for sheltering and protecting half hardy plants, etc. They all emit a pleasant resinous odor, which is known to be especially healthful.

	<i>Each.</i>
Abies concolor (Silver Fir of Colorado). A lofty tree of great beauty. Without doubt one of the finest American evergreens. Graceful habit, broad, handsome foliage, bluish above, silvery beneath	\$3 00
Abies Canadensis (Hemlock Spruce). A medium sized tree, remarkably graceful and beautiful, with drooping branches and dark foliage, like that of a Yew. It is without doubt the peer among evergreens. For hedging, massing, or planting as an individual specimen none can equal it	1 00
Abies Caroliniana (Carolina Hemlock). A beautiful medium-sized evergreen, upright habit, very hardy	2 00
Abies nobilis glauca . A magnificent tree, growing to a great height. Foliage a beautiful glaucous green, making it conspicuous wherever planted	3 00
Abies Nordmanniana . This majestic Fir is of symmetrical form, vigorous and hardy. Its foliage is massive, shining dark green above and slightly glaucous below	2 00
Cedrus deodora . A tall growing evergreen of great beauty. Its long sweeping branches with light green foliage make it one of the most attractive trees in this class	1 00
Juniperus alpina aurea . Spreading compact growth, with bright golden foliage throughout the year	1 50
Juniperus Chinensis variegata . A handsome dense dark glaucous green shrub, interspersed with branches of white, perfectly hardy	2 00
Juniperus communis hibernica (Irish Juniper). A distinct and beautiful variety of erect and dense outline, resembling a pillar of green	75
Juniperus Virginiana (Red Cedar). A well known American tree of medium size. Varies much in habit and color of foliage...	50
Juniperus Virginiana glauca . The compact conical habit of this variety, combined with its glaucous foliage, renders it very distinct and desirable	2 00
Juniperus Virginiana albo spica . Pyramidal in form, like Virginiana, but the growth is finer, with the points running to silvery white	2 00
Larix Europaea (European Larch). A tall growing tree of pyramidal outline. The small branches droop, giving it a graceful appearance	50
Larix leptolepis (Japanese Larch). A very rapid growing tree. Foliage a beautiful green, borne on long, graceful branches..	2 00
Picea alba (White Spruce). A native tree of medium height, pyramidal in form, foliage silvery gray. Very hardy.....	1 00
Picea Alcockiana . A tall growing tree of dense habit. Foliage pale green, glaucous underneath	2 00
Picea excelsa (Norway Spruce). An elegant tree, extremely hardy, of rapid, lofty growth and pyramidal form. One of the most popular evergreens for planting	1 00
Picea excelsa aurea . A striking variety, of compact habit. The young leaves on the upper side are bright yellow, on the under side green	2 00
Picea excelsa pendula . A pendulous variety of the Norway Spruce, with large bright foliage. The lateral branches of the large trees are as drooping as a willow	2 00
Picea orientalis . A handsome tree, tall and compact. Remarkable for its graceful habit and dark, slender foliage. One of the most striking of this family	2 00

ABIES CONCOLOR (The Silver Fir).

For description see page 13.

We have the largest and finest stock of Evergreens in America, and can give you good value in good plants with fine masses of fibrous roots. Call and see our Nurseries.

Each.

Picea polita (Tiger's Tail Spruce). A distinct Japanese species. It is of erect habit, and has rigid, sharply-pointed leaves of a bright green color	\$2 00
Picea pungens glauca (Colorado Blue Spruce). One of the hardiest and most beautiful evergreens. A handsome tree of lofty and pyramidal growth. The foliage is heavy and of a rich bluish color. This plant should be in every garden	3 00
Pinus Austriaca (Austrian Pine). A noble tree, remarkably robust and spreading leaves, long, stiff, and dark green. Growth rapid. Very hardy	1 00
Pinus Cembra (Swiss Stone Pine). A dwarf growing tree, but very handsome. Compact conical form. Foliage short and silvery..	2 00
Pinus excelsa (Bhotan Pine). A lofty, elegant tree, with long, drooping, silvery foliage. Hardy and vigorous	2 00
Pinus mugho . An upright, spreading, small pine. Its general form is that of a bush	1 00
Pinus strobus (White Pine). The most ornamental of all our native pines. Foliage light, delicate green. Flourishes in the poorest sandy soil	1 00
Pinus sylvestris (Scotch Pine). A noble, tall growing variety, with stout, erect shoots, and silvery green foliage. Very hardy..	1 00
Retinospora filifera . Forms a wide cone of delicate foliage, with threadlike filaments, curving gracefully from the tips of the branches	1 00
Retinospora pisifera . A large growing, graceful tree from Japan. Upright pyramidal outline. The shining green feathery foliage makes it very attractive	1 00
Retinospora pisifera aurea . Same habit as above, except the foliage, which is a beautiful golden color	1 00
Retinospora plumosa . A small growing tree of pyramidal shape, with feathery clear green foliage. A most desirable plant for lawn decoration	1 00
Retinospora plumosa aurea . A golden leaved variety of the above. The favorite yellow leaved evergreen	1 00
Retinospora obtusa . A variety of distinguished appearance. This species is peculiarly beautiful in color and appearance of its foliage and the effect which light or shade produces on same.	2 00
Retinospora obtusa nana . This is the variety which the Japanese grow in pots. A curious but beautiful tree of dwarf, irregular, picturesque growth, and dark green foliage	2 00
Retinospora squarrosa Veitchii . A grand variety, having beautiful silvery foliage, extensively used	1 00
Sciadopitis verticillata . The Umbrella Pine of Japan. Is not only one of the most distinct Conifers, but the most remarkable and beautiful. Its growth is conical. Very hardy. Foliage a shining green	3 00
Taxus baccata (English Yew). A large bush or tree. It is densely branched and can be trimmed in any shape. Foliage a beautiful dark green	1 00
Taxus baccata erecta Overeinder . An erect, dense growing variety, with fine, dark shining leaves thickly set on the branches...	2 00
Taxus hibernica (Irish Yew). A very handsome, erect, resembling a dark green pillar, rendering the plant very effective, especially for formal gardens	2 00
Taxus tardiva . A very dwarf variety from Japan. Very hardy. used for bordering, or where very low growth is desired....	1 00
Thuja occidentalis (Arbor Vitae). A beautiful native tree of medium height, commonly known as the White Cedar. Especially valuable for screens and hedges	50
Thuja occidentalis compacta . Dwarf, compact habit, and deep green foliage	1 00
Thuja occidentalis George Peabody . Dwarf, pyramidal growth, foliage bright golden color, which is retained throughout the summer	2 00
Thuja occidentalis pyramidalis . Upright, compact habit, like the Irish Juniper. Very desirable	1 00
Thuja orientalis . Upright, compact grower, with lace-like foliage..	1 00
Thuja orientalis compacta . A very dwarf form of the above	2 00

TAXUS BACCATA OVEREINDER.

For description see page 15.

The above prices are for fair sized stock. Besides these we have large quantities of specimens up to fifteen feet in height; also many varieties not here listed; prices on application.

This being one of our specialties, we make it a point to have our stock transplanted often, insuring a mass of fine, fibrous roots, without which it is useless to plant evergreens. Intending purchasers should inspect our stock, which is the largest and finest in the country.

DECIDUOUS TREES.

This class embraces species growing from ten to over a hundred feet in height, and furnishes ample material for street and avenue planting, as well as for parks and home grounds, where, with their large, spreading branches, they give restful shade in summer. The various shapes and hues of the foliage, together with the profusion of flowers produced by many varieties, give a characteristic and imposing effect to the grounds.

	<i>Each.</i>
<i>Acer dasycarpum</i> (Silver-leaved Maple). Grows rapidly to a large size. Hardy and easily transplanted	\$ 50
<i>Acer plantanoides</i> (Norway Maple). One of the most desirable varieties for street or grounds. Compact habit	50
<i>Acer plantanoides Schwedlerii</i> . The young shoots and leaves of this variety are a brilliant purple or crimson, which changes to purplish green in the older leaves	1 00
<i>Acer polymorphum</i> (Japan Maple). This is the type, growth slow and shrubby, foliage bright green, changing to dark crimson in autumn	1 00
<i>Acer polymorphum atropurpureum</i> . Foliage dark purple and deeply cut. Very hardy and ornamental	1 00
<i>Acer polymorphum atropurpureum dissectum</i> . Dwarf and weeping form. Leaves beautiful rose color when young, changing to a deep purple, and having a fern-like appearance....	1 00
<i>Acer polymorphum aureum</i> . Habit compact, beautiful yellow foliage, turning to crimson in the autumn	1 00
<i>Acer polymorphum reticulatum</i> . Deeply cut palmate foliage, beautifully veined with light green color	1 00
<i>Acer polymorphum sanguineum</i> . Dwarf habit, foliage serrated, reddish crimson in June. One of the best	1 00
<i>Acer polymorphum</i> . Collection of 25 varieties. These comprise all the sorts of this grand plant, and the many forms are very interesting when planted together	1 00
<i>Acer negundo</i> (Ash-leaved Maple). A very rapid growing variety, used generally where immediate effect is required....	50
<i>Acer saccharinum</i> (Sugar or Rock Maple). A stately tree of pyramidal growth. Especially valuable for avenue planting..	50
<i>Aesculus hippocastanum</i> (White flowered Horse Chestnut). Forms a large sized tree. Very hardy. In May it is covered with large spikes of white flowers.....	50
<i>Aesculus hippocastanum plenum</i> . Produces double flowers. The absence of fruit, by which much litter is avoided	1 00
<i>Aesculus hippocastanum rubicunda</i> . One of the finest trees. Flowers showy red. The leaves are deep green	1 00
<i>Betula alba</i> (White Weeping Birch). A graceful tree, with silvery bark, assuming an elegant, drooping habit	50
<i>Betula alba pendula</i> . A weeping form of the above.....	1 00
<i>Betula alba pendula laciniata</i> . One of the most popular weeping trees. Its drooping branches, covered with delicately cut foliage, make it admired wherever seen	1 00
<i>Betula alba atropurpurea</i> . Very vigorous habit, and purple foliage	1 00
<i>Castanea Americana</i> (American Chestnut). The well known native variety. Makes a stately tree	50
<i>Catalpa Bungeii dwarf</i> . A small growing form from China. Foliage large and glossy	50
<i>Catalpa Bungeii standard</i> . This variety grafted on stems of tall varieties makes an effective umbrella-shaped tree	2 00
<i>Catalpa speciosa</i> . A very vigorous hardy variety, producing large, pyramidal clusters of white flowers	50
<i>Cercidophyllum Japonicum</i> . A Japanese tree having small leaves, and when starting from the bud are of a light pink color, giving the tree a beautiful appearance	1 00
<i>Cerasus Sieboldii alba plena</i> (Double flowering Cherry). One of the finest of trees, producing double white flowers.....	1 00
<i>Cerasus Sieboldii rosea plena</i> . Like the above, except the flowers, which are a beautiful shade of pink.....	1 00
<i>Cercis Canadensis</i> (Judas Tree). A native tree of medium size, flowering before the foliage appears. Very beautiful	50

CORNUS FLORIDA (Flowering Dogwood).

For description see opposite, page 19.

Besides the stock here enumerated and priced we have many other rare kinds, as well as large specimens, of which we would be happy to give prices on application or have you call and select same.

	<i>Each.</i>
Chionanthus Virginicus (White Fringe). A dwarf tree, producing racemes of pure white flowers, with fringe-like petals.....	\$0 75
Cladrastis tinctoria (Yellow Wood). One of the finest flowering trees. Leaves light green, flowers produced on long, drooping racemes, white and sweet scented	1 00
Cornus florida (Dogwood). Too well known to need any description. A beautiful tree in spring or fall	50
Cornus florida rubra. A form of the above, producing fine pink flowers when very young	1 00
Cornus florida pendula. A variety of <i>C. florida</i> , with drooping branches	1 00
Crataegus oxycantha (Hawthorn). The celebrated English hedge plant. Flowers single white	35
Crataegus oxycantha alba plena. Flowers double white	1 00
Crataegus oxycantha rosea plena. Luxuriant foliage. Flowers large, very double, and of a beautiful rose color.....	1 00
Crataegus oxycantha Paul's scarlet. Flowers bright carmine red. Superior to any of its color	1 00
Fagus ferruginea (American Beech). One of the finest native trees, growing to immense size. Rich glossy foliage	1 00
Fagus sylvatica (European Beech). A grand tree, growing to the height of eighty feet	50
Fagus sylvatica asplenifolia. Elegant round habit. The leaves are delicately cut, giving it a fern-like appearance.....	1 00
Fagus sylvatica pendula (Weeping Beech). A very interesting pendulous tree, with rich foliage of wondrous beauty.....	2 00
Fagus sylvatica purpurea. An elegant tree. Foliage in spring deep purple, changing to purplish green in fall	2 00
Fagus sylvatica purpurea Riversii. Compact habit. Foliage crimson in early spring. The finest of all purple trees	2 00
Fagus sylvatica purpurea pendula. Similar in habit and growth to the Weeping Beech. Foliage deep purple	3 00
Fagus sylvatica tricolor. A grand variety, with beautiful rose-margined leaves	2 00
Fraxinus excelsior (European Ash). A noble tree, of rapid growth, gray bark, pinnate leaves, and black buds	50
Fraxinus excelsior aurea. A curious tree, with yellow bark and twisted branches	1 00
Fraxinus excelsior pendula (Weeping Ash). One of the finest lawn and arbor trees. Grows rapidly	1 00
Juglans Japonica. (The Japanese Walnut.) One of the most rapid growing trees	1 00
Liquidambar staraciflua (Sweet Gum). A moderate sized tree, with star-shaped glossy green leaves, turning to deep crimson in autumn	1 00
Liriodendron tulipifera (Tulip Tree). Allied to the Magnolias. Vigorous grower, producing beautiful tulip-like flowers.....	1 00
Magnolia acuminata. A beautiful pyramidal tree, with large bluish green leaves. Flowers yellow tinted, with purple....	1 00
Magnolia conspicua. Tree of medium size. The flowers are large, pure white, and produced before the leaves	2 00
Magnolia glauca. Thick, almost evergreen, foliage, with profusion of white, fragrant flowers	1 00
Magnolia Hypoleuca. Rapid growing tree, large foliage	1 00
Magnolia Kobus. Medium size, bushy growth. Blush white and fragrant flowers	2 00
Magnolia Lenneii. Foliage large, flowers dark purple, fine sort..	2 00
Magnolia macrophylla. Leaves two feet in length. Flowers white, of immense size. A fine tropical looking tree	2 00
Magnolia obovata discolor. Profuse bloomer, with white, reddish pink flowers	1 00
Magnolia purpurea. Medium sized flower, rose purple color.....	1 00
Magnolia parviflora. Rare Japanese variety. Flowers white, with purple centre	2 00
Magnolia Soulangeana. Foliage large, glossy and massive. Flowers white and purple, cup-shaped. One of the best....	2 00
Magnolia stellata. The earliest flowering form, dwarf habit, with pure white semi-double fragrant flowers	2 00

	<i>Each.</i>
Magnolia tripetala. Very hardy type, with immense leaves and large white flowers appearing in June	\$1 00
Morus Downings. A rapid growing tree, bearing fine fruit	50
Morus Teas Weeping. One of the finest small weeping trees. forms a perfect umbrella-shaped head. Very hardy.....	1 00
Paulownia imperialis. A tropical looking tree, of rapid growth, and surpassing all others in size of leaves, which are often over a foot in diameter	1 00
Persica vulgaris alba fl. pl. (Flowering Peach). Flowers pure white and double. Perfectly hardy	50
Persica vulgaris coccinea pl. Flowers double bright red.....	50
Persica vulgaris rosea pl. Flowers double rose colored.....	50
Persica vulgaris rosaflorea. Flowers double, pink	50
Platanus orientalis (Sycamore). Extensively used for street and park planting. A grand tree	50
Populus alba (Poplar). Rapid growth and wide spreading habit. Leaves large, green above and white beneath	50
Populus aurea. Fine yellow foliage, retaining its brilliancy through the season. Effective in masses	50
Populus monolifera (Carolina Poplar). Pyramidal in form, very vigorous in growth. Leaves large, glossy, deep green	50
Ptelea trifoliata (Hop Tree). Small tree, vigorous grower. Fruit winged and produced in clusters	1 00
Ptelea trifoliata aurea. Beautiful, glossy, golden foliage	1 00
Prunus Pissardii (Purple leaved Plum). The finest purple leaved tree or shrub. Leaves are a lustrous crimson when young, changing to a dark purple	75
Pyrus spectabilis (Flowering Crab). One of the finest flowering trees. Very hardy	1 00
Pyrus spectabilis fl. alba pl. Double white, fragrant flowers, borne in clusters	1 00
Pyrus spectabilis fl. rosea pl. Same as above in habit. Flowers beautiful rose color	1 00
Quercus coccinea (Scarlet Oak). Rapid grower, pyramidal outline. Leaves turn bright scarlet in autumn	1 00
Quercus alba. Large, spreading tree	1 00
Quercus palustris (Pin Oak). A fine, vigorous tree of drooping form. One of the best for planting avenues	1 00
Robinia hispida rosea (Locust). A native species of irregular growth, producing clusters of rose-colored flowers in June...	1 00
Salix Babylonica (Weeping Willow). Our well known willow ..	50
Salix laurifolia. Ornamental tree, with large, shining leaves	50
Tilia Americana (Linden). A rapid growing, large sized native tree. Large leaves, fragrant flowers	1 00
Tilia Europaea. A fine, pyramidal tree, with heavy foliage, and producing clusters of flowers	1 00
Tilia argentea. Particularly noticeable among trees by its white appearance. Very ornamental	1 00
Tilia pendula. A beautiful tree with large foliage and slender, drooping branches	2 00
Ulmus Americana (Elm). The finest of all our native spreading and drooping trees	50
Ulmus pendula. A fine and graceful weeping tree.....	2 00

Large specimen trees and varieties not listed in stock. Call at the Nurseries or write for particulars, stating your wants.

DECIDUOUS FLOWERING AND FOLIAGE SHRUBS.

This class is represented by a very large class of shrubs growing from two to ten feet in height. Producing a wealth of beautiful flowers at the different seasons, or a mantle of bright colored foliage, making an attractive mass from early spring to late fall. Indispensable for every garden, however small.

	<i>Each.</i>
<i>Amorpha fruticosa</i> . Interesting ornamental shrub of spreading habit, with fine, feathery foliage. The flowers are of an unusual color, dark violet purple	\$0 35
<i>Aralia spinosa</i> (Hercules Club). A native plant, valuable for producing tropical effects	50
<i>Andromeda arborea</i> . A fine native shrub, producing long racemes of flowers in early summer	50
<i>Azalea mollis</i> . Flowers large and showy, in color yellow to red. .	1 00
<i>Azalea pontica</i> . Fragrant orange and red flowers	1 00
<i>Azalea calendulacea</i> . The grandest of this family. Flowering after all other sorts have gone	1 00
<i>Azalea Vaseyii</i> . A beautiful native variety. Flowers rosy pink, appearing before the leaves	1 00
<i>Berberis vulgaris</i> (Barberry). A handsome shrub, with drooping racemes of yellow flowers	35
<i>Berberis vulgaris purpurea</i> . Foliage and fruit violet purple. Very effective in groups or masses	35
<i>Berberis Thunbergii</i> . A dwarf variety, with small leaves, changing to a beautiful coppery red in autumn	35
<i>Baccharis glomeruliflora</i> . Dwarf shrub, producing profusely numerous yellowish flowers in the fall. Good plant for the seashore	50
<i>Calycarpa purpurea</i> . An elegant shrub, with bright green foliage, with numerous purplish blue berries in fall	75
<i>Calycanthus floridus</i> (Sweet scented Shrub). A native plant with double purple very fragrant flowers	35
<i>Caryopteris mastacanthus</i> (Blue Spiraea). A pretty autumn blooming shrub, producing clusters of light blue flowers....	35
<i>Clethra alnifolia</i> (White Alder). Produces spikes of clear white fragrant flowers in August	35
<i>Cornus sanguinea</i> . Very ornamental in winter, the bark being blood red	35
<i>Cornus sanguinea elegantissima variegata</i> . One of the best variegated shrubs. Leaves broadly margined with white....	50
<i>Cornus Spathii aurea</i> . A good companion for the above. The variegation in this variety is yellow	50
<i>Corchorus Japonica</i> . Slender green branched shrub, with globular yellow flowers	35
<i>Corchorus Japonica fl. pl.</i> A double flowered variety	35
<i>Corchorus Japonica var.</i> Dwarf growing, with beautiful green foliage, edged with white	35
<i>Corylus avellana</i> (Hazelnut). Fine, heavy green leaves	50
<i>Corylus avellana atropurpurea</i> . The same habit as the above, except the foliage, which is of a dark purple color	75
<i>Corylus avellana laciniata</i> . Ornamental, deeply cut	75
<i>Cydonia Japonica</i> (Japan Quince). One of the best hardy shrubs. Flowers bright crimson, produced in great profusion in early spring	35
<i>Deutzia crenata fl. pl. alba</i> . Flowers double white. One of the most desirable shrubs	35
<i>Deutzia crenata fl. pl. rosea</i> . Similar in habit to the preceding. Flowers rose color	35
<i>Deutzia crenata</i> (Pride of Rochester). The finest of all the double flowering Deutzias	35
<i>Deutzia gracilis</i> . Dwarf species. Flowers white, very early....	35
<i>Exochorda grandiflora</i> . A grand native shrub, producing large white flowers in May	50

	<i>Each.</i>
Forsythia Fortunii (Golden Bell). Growth upright, foliage deep green, yellow flowers. One of the first to bloom in spring ..	\$0 35
Forsythia suspensa . The growths are drooping	35
Forsythia viridissima . Leaves and bark dark green. Flowers early	35
Halesia tetraptera (Silver Bell). Large growing shrub, with pretty white bell-shaped flowers	50
Hibiscus Syriacus Boule de Feu (Rose of Sharon). Flowers double, of a beautiful violet red color	35
Hibiscus Syriacus Duc de Brabant . A fine double flowered variety	35
Hibiscus Syriacus foliis variegatus . Beautifully variegated foliage, double purple flowers	35
Hibiscus Syriacus totus albus simplex . Single pure white. Fine	35
Hibiscus Syriacus totus albus plenus . Flowers double pure white	35
Hibiscus Syriacus violaceus simplex . Single purple flowers.....	35
Hibiscus Syriacus violaceus plenus . Double purple flowers.....	35
Hydrangea paniculata . An upright growing shrub, with pyramidal panicles of white flowers	35
Hydrangea paniculata grandiflora . One of the finest flowering shrubs. Flowers white, on pyramidal panicles a foot long....	35
Hydrangea quercifolia . Foliage resembles that of the Oak. Flowers cream colored, medium sized panicles	50
Hypericum aureum . Flowers a bright yellow, borne in great profusion from August until October	50
Hypericum Moserianum . A fine dwarf shrub, producing large yellow flowers in great profusion during summer	50
Itea Virginica . A native shrub with racemes of pretty white flowers during summer	25
Ligustrum ovalifolium (California Privet). A vigorous hardy variety of fine habit and foliage. The best hedge plant.....	25
Ligustrum ovalifolium aureum (Manda's Golden). This is without doubt the grandest variegated hardy shrub in cultivation, holding the fine golden variegation from spring until frost. Valuable for hedges, massing, and as single specimens	25
Lonicera tartarica alba (Tree Honeysuckle). Forms a high bush, with creamy white fragrant flowers	35
Lonicera tartarica rubra . A fine variety of the above, with large dark rose colored flowers	35
Paeony arborea (Tree Paeony). Flowers very large and gorgeous, appearing in May. Many varieties	1 00
Philadelphus coronarius (Syringa or Mock Orange). A well known shrub, producing white, sweet-scented flowers	35
Philadelphus foliis aureus . A medium-sized golden-leaved variety, creating a pleasing contrast with purple-leaved shrubs.	50
Philadelphus Lemoinei . Growth upright, and covered with small, yellowish white flowers. Very pretty	50
Philadelphus inodorus . Large white flowers.....	35
Philadelphus grandiflorus . Large showy flowers, slightly fragrant	35
Prunus triloba (Double flowered Plum). A grand hardy shrub. Flowers double, of a delicate pink color, thickly set on long, slender branches	50
Rhodotypus kerrioides . Medium-sized shrub, handsome foliage and single white flowers, succeeded by small fruits	35
Rhus cotinus (Purple Fringe or Smoke Tree). Produces a curious fringe, or hair like flowers, that covers the whole surface of the plant in midsummer	35
Rhus glabra laciniata . A striking plant of medium size, with deep, lacinated leaves resembling fern leaves, turning to a rich crimson in autumn	50
Ribes aureum . A native shrub with glabrous shining leaves and yellow flowers	35
Sambucus nigra aurea (Golden Elder). Fine rapid growing shrub, with golden yellow foliage. Fine color effect	35
Spiraea Billardii . Flowers nearly all summer	35
Spiraea Bumalda . A dwarf but vigorous variety. The rose colored flowers are produced in great profusion during midsummer and autumn	35

	<i>Each.</i>
<i>Spiraea Bumalda</i> Anthony Waterer. A fine dwarf variety, with dark crimson flowers. One of the finest shrubs	\$0 35
<i>Spiraea opulifolia aurea</i> . A beautiful variety, with golden yellow foliage and double white flowers. A robust grower.....	35
<i>Spiraea prunifolia</i> pl. Pure white flowers, like white daisies. Keeps in flower a long time. One of the best	35
<i>Spiraea Reevesii</i> . A fine shrub, producing large clusters of pure white flowers that cover the whole plant	35
<i>Spiraea Reevesii</i> fl. pl. A double flowering variety of the above.	35
<i>Spiraea Thunbergii</i> . Dwarf and graceful branches, slender and drooping. Flowers white. One of the first to flower.....	35
<i>Spiraea Van Houtteii</i> . One of the best shrubs. Strong grower. Very hardy. Covered in May and June with a mass of large white flowers, presenting a beautiful appearance	35
<i>Syringa persica</i> (Persian Lilac). Grows from four to six feet high. Produces purple flowers, borne on drooping branches..	50
<i>Syringa vulgaris</i> . The well known Lilac. Bluish purple	50
<i>Syringa vulgaris alba</i> . A white form of the above.....	50
<i>Syringa vulgaris alba grandiflora</i> . Very large pure white trusses	50
<i>Syringa vulgaris Charles X</i> . A strong, rapid growing variety, with large, loose trusses of reddish purple flowers	50
<i>Syringa vulgaris Marie Legraye</i> . Large white panicles	50
<i>Styrax Japonica</i> . Large shrub, with small, glossy foliage and beautiful drooping pure white snowdrop-like flowers.....	1 00
<i>Tamarix Africana</i> . Handsome foliage, upright habit	35
<i>Tamarix indica</i> . Delicate foliage of a lively green color	35
<i>Tamarix Germanica vera</i> . Foliage a glaucous green.....	35
<i>Viburnum opulus</i> . A fine ornamental shrub, which is covered with red berries until destroyed by frost late in the fall.....	35
<i>Viburnum plicatum</i> . One of the most desirable flowering shrubs. Fine habit and foliage. Globular heads of pure white flowers	50
<i>Weigela amabilis</i> . Flowers light pink. Very free.....	35
<i>Weigela amabilis alba</i> . Pure white form of the above.....	35
<i>Weigela rosea</i> . An elegant shrub. Erect, compact growth, producing fine rose colored flowers	35
<i>Weigela variabilis</i> . Brilliant crimson. A vigorous grower	35
<i>Weigela foliis variegatus</i> . A grand variegated leaved shrub	35
<i>Zanthorhiza apiifolia</i> . Dwarf compact shrub, with fern-like leaves and yellow flowers. Good for shady situation	35

SPIRAEA VAN HOUTTEII. For description see above.

RHODODENDRON IN FLOWER.

For description see pages 6, 7, 26.

KALMIA LATIFOLIA (Mountain Laurel).

For description see pages 7 and 25.

EVERGREEN FOLIAGE AND FLOWERING SHRUBS.

A most desirable class of plants, with massive generally glossy foliage, which is evergreen through the winter, the foliage changing in many varieties to beautiful bronze purple and crimson hues, besides the fine and attractive flowers which are produced in spring and early summer, and on that account should be planted in every garden.

Each.

<i>Abelia rupestris.</i> Beautiful dwarf shrub, with small, glossy foliage and covered with white flowers in late summer	\$0 50
<i>Andromeda Catesbaeii.</i> A grand, glossy-leaved plant, bearing early in June panicles of waxy white flowers. The foliage during winter turns a beautiful crimson, making it one of the most effective plants we have for winter effect	50
<i>Andromeda floribunda.</i> A pretty plant of dwarf compact habit, with rich, dark green foliage and pure white flowers in spring, resembling Lily of the Valley	1 00
<i>Andromeda Japonica.</i> A taller and more graceful shrub with long recurved sprays of white flowers	1 00
<i>Artemisia abrotanum</i> (Old Man or Southernwood). Dark green, finely cut foliage, with pleasant aromatic odor	25
<i>Azalea amoena.</i> A neat, low growing shrub. The foliage is small, dark green, turning to bronze brown in winter. In early May it is covered with a mass of purplish red flowers	1 00
<i>Azalea indica alba.</i> One of the most beautiful, hardy, early flowering shrubs. Flowers pure white, borne in great profusion, Extra strong	2 00
<i>Azalea Oriental Hybrids.</i> In several colors	1 00
<i>Berberis reptans.</i> A dwarf creeping variety, with lustrous green foliage	75
<i>Berberis aquifolium</i> (Mahonia). An upright dwarf shrub, with glossy green foliage, turning to a beautiful shade of purple in winter	50
<i>Berberis fascicularis.</i> A variety of the above. Taller growth, smaller and more crested foliage	50
<i>Berberis Neubertii.</i> A hybrid variety, with small, crenate foliage.	50
<i>Buxus sempervirens</i> (Boxwood). The favorite border plant for old-fashioned and formal gardens	5
<i>Buxus sempervirens arborea.</i> The tall growing variety	1 00
<i>Buxus sempervirens arborea variegata.</i> A variegated form	1 00
<i>Buxus sempervirens pyramidalis.</i> Upright habit	1 00
<i>Buxus sempervirens longifolia.</i> Variety with elongated foliage and drooping branches	1 00
<i>Buxus sempervirens argenteis.</i> Silver variegated leaves	1 00
<i>Buxus sempervirens foliis aureus.</i> Has beautiful, large, golden foliage. Dwarf habit	50
<i>Calluna vulgaris alba</i> (Heather). Fine feathery foliage covered with masses of small, white flowers in late summer	50
<i>Cassandra calyculata.</i> Dwarf shrub, with white flowers	50
<i>Cotoneaster buxifolia.</i> Dwarf shrub, with small, glossy, feathery foliage	35
<i>Cotoneaster Microphylla.</i> Dwarf variety, with smaller oblong foliage	35
<i>Euonymus Japonicus.</i> A beautiful glossy-leaved plant of upright habit	35
<i>Euonymus radicans arborescens.</i> A dwarf, compact form, suitable for edging or as dwarf hardy shrub	50
<i>Ilex crenata.</i> A dwarf Japan Holly. A beautiful dwarf shrub for specimen or small hedges	50
<i>Ilex opaca</i> (Holly). The well known American Holly	50
<i>Leiophyllum buxifolium.</i> A very dwarf shrub, covered with small, white flowers. Fine for rockwork	50
<i>Leiophyllum buxifolium prostratum.</i> A prostrate variety of the above	50
<i>Kalmia latifolia</i> (Mountain Laurel). Shining foliage, dense clusters of pink or nearly white flowers in spring	1 00

SPECIMEN PLANT OF RHODODENDRON.

(In midwinter, showing desirability for evergreen effect.)

Rhododendron Catawbiense. Hardy variety, producing freely large trusses of lilac purple flowers. The true Rhododendron color	\$2 00
Rhododendron maximum. The hardiest species, with massive foliage, covered with trusses of white to pale rose flowers in July (See pages 6 and 7)	1 00
Rhododendron hybrids. We have a fine stock of the best selected twelve hardy varieties, varying in color from pure white to dark scarlet	2 00

Besides the above varieties and ordinary trade sizes, we have all other varieties in stock, besides very large specimens for landscape effect. Particulars on application.

HARDY VINES AND CREEPERS.

On account of the habit of this class of plants, they are indispensable for covering posts, trellises, trees, stumps, walls, rocks, or banks; also for screens on piazzas. Besides the luxuriant foliage, they all have showy flowers, which add to their desirability for above purposes.

	<i>Each.</i>
<i>Actinidia polygama</i> . Flowers white, sweet scented. One of the best climbing plants	\$0 50
<i>Akebia quinata</i> . A curious climber, with fine foliage, purple flowers and ornamental fruit	35
<i>Ampelopsis quinquefolia</i> (Virginia Creeper). One of the finest vines for covering walls, verandas, or trunks of trees.....	35
<i>Ampelopsis Veitchii</i> (Boston Ivy). Too well known to need any description	35
<i>Aristolochia siphon</i> (Dutchman's Pipe). A rapid climber, with large, green foliage and pipe-shaped yellowish brown flowers	75
<i>Bignonia radicans</i> (Trumpet Creeper). A robust climber, with large trumpet-shaped scarlet flowers	35
<i>Bignonia radicans grandiflora</i> . Flowers salmon-colored	50
<i>Celastrus scandens</i> . A native climber, with large, glossy leaves, yellow flowers, producing clusters of orange-capsuled fruit..	35
<i>Clematis cocinea</i> (Virgin's Bower). Flowers scarlet, bell shaped	35
<i>Clematis flamula</i> . Flowers small, white, and very fragrant.....	35
<i>Clematis Henryi</i> . Large, creamy white flowers, free grower.....	50
<i>Clematis Jackmannii</i> . Large, velvety, violet purple flowers.....	50
<i>Clematis Madame E. Andre</i> . Flowers bright velvety red, large..	50
<i>Clematis paniculata</i> . A most desirable and beautiful vine, luxuriant grower, profuse bloomer, and possessing fine foliage. The flowers are white and fragrant, produced in great profusion in late summer	35
<i>Clematis Virginiana</i> . A rapid growing plant, producing an immense profusion of white flowers in August, followed by fluffy white seeds	35
<i>Euonymus radicans</i> . A grand evergreen creeping plant, with pretty, small dark green foliage. Useful plant for covering stone walls, stumps, or as an edging plant, for which purpose it can be kept closely clipped in the same manner as box...	25
<i>Euonymus radicans variegata</i> . A variegated form of the above..	25
<i>Jasminum humile</i> . Evergreen vine or trailer, with yellow flowers in the early spring	50
<i>Jasminum nudiflorum</i> . Produces multitudes of pale yellow flowers before the leaves appear	50
<i>Hedera canariensis</i> (Ivy). A well known evergreen vine, useful for covering walls or running up trunks of trees	25
<i>Lonicera Belgica</i> (Honeysuckle). Blooms all summer. Red and yellow flowers, very fragrant	35
<i>Lonicera flava</i> . A well known native vine, with yellow flowers...	35
<i>Lonicera Halleana</i> . Almost evergreen, white flowers, changing to yellow. Very fragrant. The best for general purposes	35
<i>Lonicera reticulata aurea</i> . Foliage beautifully netted, or variegated, with yellow. A handsome variety	35
<i>Lonicera sempervirens</i> . Strong, rapid grower, with brilliant scarlet flowers. One of the best	35
<i>Periploca Graeca</i> (Silk Vine). A beautiful climber, with glossy green foliage and purple brown clusters of flowers.....	35
<i>Wistaria Sinensis</i> . The most elegant and rapid growing of all climbing plants, producing long clusters of blue flowers	50
<i>Wistaria Sinensis alba</i> . Same as above, flowers are pure white ..	50
<i>Wistaria fruticosa</i> . Not so vigorous as the <i>Sinensis</i> flowers. Pale blue, borne in short clusters.....	50
<i>Wistaria brachybotrys alba</i> . Shorter growth than above, producing many white pendent clusters of flowers.....	2 00
Climbing Roses . In many varieties. See <i>Roses</i> .	

Pot grown plants and large sized plants for immediate effect always in stock, at proportionate prices.

"PINK PEARL" (Manda).

(Meteor x Wichuraiana.)

This Rose created a sensation when exhibited in Eden Musée at a show held by the American Rose Society, not only from professional men, but also from the general public and daily press, and was considered the gem of the show. It is a remarkable grower, with enormous, long shoots, well covered with large, leathery, thick, shiny foliage, which keeps mostly all through the winter. The flowers are produced from the ripened growths, with stems nine to twelve inches long, either singly or three to five in bunches. The bud is a beautiful rich crimson color, and when open the flower is perfectly double, of a beautiful pearl pink color, with a bright yellow protruding stigma standing up like a crown. The flowers are deliciously fragrant, and last a long time in perfection.

This Rose has received first-class certificates from the American Rose Society and numerous other awards.

CLIMBING, TRAILING, AND VARIOUS ROSES.

This class of Roses can be used for covering walls, trellises, trees, stumps, rocks, steep banks and other purposes in landscape work, adding beauty and grace, especially the Wichuraiana section, which is here enumerated, but more fully described on next pages, also illustrated. Besides the stock quoted, we have large pot-grown specimens for immediate effect. Good 2-year-old plants, 50c. each; \$5.00 per doz.; \$35.00 per 100; or our selection, \$28.00 per 100.

- Baltimore Belle.** Blush flowers in clusters.
- Crimson Rambler.** Brilliant crimson clusters.
- Evergreen Gem.** Buff in bud, opening white trailing.
- Gardenia.** Bright yellow to cream color.
- Jersey Beauty.** Large single pale yellow flowers.
- Manda's Triumph.** Pure white, borne in clusters.
- Paul's Carmine Pillar.** Large single carmine flowers.
- Pink Pearl.** Strong grower, double pearl pink.
- Pink Roamer.** Rich pink, white centre, single.
- Psyche.** Delicate rosy pink.
- Queen of the Prairies.** Deep rose, vigorous grower.
- Reine Marie Henrietta.** Rich cherry crimson.
- Russell's Cottage.** Dark crimson, rapid grower.
- Seven Sisters.** Crimson, changing to white.
- Setigera.** Single shell, pink flowers.
- South Orange Perfection.** White, tipped with pink.
- Universal Favorite.** Rose colored, vigorous grower.
- Wichuraiana.** Pure white, single rose, trailing.

VARIOUS ROSES.

- Crested Moss.** Rose colored, beautifully crested.
- Harrison's Yellow.** Fine golden yellow.
- Multiflora.** Single white, very floriferous.
- Persian Yellow.** Yellow, semi-double.
- Rugosa.** Deep rose, fine for hedges.
- Rugosa alba.** Pure white variety of above.
- Rugosa Madame Bruant.** Semi-double, white clusters.

HARDY AND HYBRID PERPETUAL ROSES.

Selected from thousands of varieties as the best for the American climate, and embracing all the best known sorts. We offer extra strong 2 and 3-year old plants that give the best satisfaction, and should not be compared with cheap second class stock. Fine dormant stock, 50c. each; \$5.00 per doz.; \$35.00 per 100. Our selection, \$28.00 per 100.

- Alfred Colomb.** Bright, clear, red full flower.
- Anne de Diesbach.** Clear rose, very free flowering.
- Baron Bonstetten.** Dark maroon red.
- Baroness Rothschild.** Fine flower, beautiful soft pink.
- Clio.** Flesh color, shaded deeper in centre.
- Coquette des Alps.** Pure white, tinged with pale blush.
- Coquette des Blanches.** Pure white, shell shaped petals.
- Duke of Edinburgh.** Bright scarlet crimson, shaded maroon.
- Francois Levet.** Fine, bright, clear rose.
- Fisher Holmes.** Rich velvety crimson.
- General Jacqueminot.** Bright crimson.
- General Washington.** Soft scarlet to glowing crimson.
- John Hopper.** Bright rose pink, very free.
- Jules Margotten.** Brilliant carmine.
- Mabel Morrison.** Clear white, one of the best.
- Madame Plantier.** Pure white, borne in clusters.
- Magna Charta.** Bright rose color.
- Margaret Dixon.** Grand white, flushed with pink.
- Marshall P. Wilder.** Cherry carmine.
- Merveille de Lyon.** White shaded, delicate pink.
- Mrs. John Laing.** Clear pink.
- Paul Neyron.** Very large, deep cerise maroon.
- Prince Camille de Rohan.** Rich velvety maroon.
- Ulrich Brunner.** Clear bright crimson.
- Victor Verdier.** Bright rosy crimson.

GARDENIA (*Manda*).

(*Wichuraiana* x *Perle des Jardins*.)

Strong grower, with large green foliage. Flowers produced singly on stems one-half to one foot long. When in bud, hardly distinguishable from *Perle*, bright yellow, and when open cream color, three to three and a half inches in diameter, incurving toward evening to perfect imitation of *Gardenia* as to shape and color, hence its name. Flowers are delightfully fragrant, and produced freely. A grand Rose for any purpose.

NEW HYBRID WICHURAIANA ROSES

(*Memorial Rose*).

The most remarkable improvement in creating a new and distinct type of HARDY ROSES that has been made for a generation. The growth is remarkable for its freedom, a single plant four years old, covering a space of 240 square feet, with long shoots, twelve to twenty-five feet in length, completely covering the ground with its bright, glossy foliage and showy, fragrant flowers. The foliage of all is leathery in texture, shining, and not only proof against insects, but evergreen; in some varieties, that is, keeping the foliage all winter—a characteristic in roses never before obtained.

The flowers are produced most profusely, of large size, very fragrant, and can be easily used for cut-flower purposes. The use of these roses will be unlimited—for trailing or covering ground where nothing else would grow, to cover roots, stumps and stems of trees, walls and trellises, for cut-flower purposes. All the following varieties exceed any other rose in hardiness, evergreen foliage, beauty and fragrance of their flowers.

	Each.	Doz.	100.
Nice 2-inch pot plants.....	\$0 15	\$1 50	\$8 00
Strong 1-year-old plants	25	2 50	15 00
Large 2-year-old plants	45	4 50	35 00
Extra 3-year-old plants	75	7 50	50 00

CRIMSON ROAMER (*Manda*).

(*Bardou Job x Jersey Beauty*.)

Exhibited and certified by the American Rose Society, under "Improved Pink Roamer." This is a wonderful Rose that will displace the Pink Roamer, as it has better habits, closer and thicker foliage of leathery, shiny substance, while the flowers, with which the plant is entirely covered, are of the richest crimson red imaginable, with bright yellow stamens. It is a grand Rose for landscape purposes.

WHITE STAR (*Manda*).

(*Jersey Beauty x Manda's Triumph*.)

Beautiful free-growing variety, with fine bronzy foliage. Single white flowers, with yellow stamens. This will be found a valuable Rose for landscape purposes.

IMPROVED UNIVERSAL FAVORITE (*Manda*).

A distinct sport of this well-known variety sent out by me several years ago, with longer growths and the flower larger, more double, and better form; much brighter in color. Beautiful addition to this grand class of Roses.

MANDA'S TRIUMPH (*Manda*).

This grand Rose is of free growth, luxuriant foliage, and produces large clusters of double pure white flowers, two inches in diameter, beautifully imbricated and well formed, very sweet scented.

UNIVERSAL FAVORITE (*Manda*).

This is the most vigorous plant of the set. The long branching shoots are covered with dense bright green foliage. The double flowers are over two inches in diameter, and of a beautiful rose color, similar to the *Bridesmaid*, and deliciously fragrant. A grand variety for any purpose.

SOUTH ORANGE PERFECTION (*Manda*).

This is a gem, growing freely close to the ground, and having multitudes of the most perfectly formed double flowers, about one and a half inches in diameter, soft blush pink at the tips, changing to white. It lasts a long time in perfection.

Flowers and Bud of New Single Evergreen Rose Jersey Beauty.

JERSEY BEAUTY (*Manda*).

(*Wichuraiana* x *Perle des Jardins*.)

Extremely vigorous grower, foliage shiny, thick, of leathery substance. Flowers singly or in clusters of two to four, large, single, three inches in diameter, opening pale yellow, with clusters of bright yellow stamens, which give it a most striking appearance, fragrant, and produced in greatest profusion, covering the plant entirely, and having the appearance of a yellow Cherokee Rose.

TEA, HYBRID TEA, AND EVERBLOOMING ROSES.

Under this heading are gathered such Roses as will give a fine show of flowers all summer, same as greenhouse roses, yet with good covering of leaves, straw or any other dry material and few green boughs, the roots are hardy, and, after a good, hard pruning in the spring, they will push their shoots and flower all summer. We have a fine stock of this class of Roses in 2-year-old plants, and can furnish same at 50c. each; \$5.00 per doz.; \$35.00 per 100; or our selection, \$28.00 per 100.

- American Beauty.** Deep crimson color.
- Balduin.** Intense carmine crimson.
- Captain Christy.** Deep flesh color.
- Clothilde Soupert.** Pearl white to rosy pink.
- Corallina.** Deep coral red.
- Duchess of Albany.** Rich, deep pink.
- Etoile de Lyon.** Best of all yellow Roses.
- Gruss an Teplitz.** Bright scarlet, shaded crimson.
- Hermosa.** One of the best pink bedding roses.
- Kaiserin Augusta Victoria.** Creamy white, best outdoor variety.
- La France.** Fine satiny rose, highly recommended.
- Liberty.** Brilliant crimson.
- Maman Cochet.** Deep rose pink, very double.
- Marie Van Houtte.** Pale yellow, very floriferous.
- Meteor.** Rich dark velvety crimson.
- Madame Caroline Testout.** Brilliant satin rose.
- Mrs. Robert Garrett.** Light shade of pink.
- Mosella.** Canary yellow, shading to white.
- Papa Gontier.** Deep coral red, very free.
- Robert Scott.** Beautiful clear pink.
- Soliel d'Or.** Orange yellow to reddish gold.
- Souvenir de la Malmaison.** Creamy flesh color.
- Souvenir de President Carnot.** Rosy, shading to white.
- Snowball.** Pure white, very floriferous.
- White Maman Cochet.** White, shading to blush.

GREENHOUSE ROSES.

This is a complete list of all desirable varieties for culture under glass. As a rule, plants are planted out on benches in May or June to flower the coming fall and winter, out of two or three inch pots. If wanted to flower in pots, they should be potted on, so as not to check the growth of the plant. We can supply nice, strong, young plants at the prices quoted.

Strong 3-inch plants, \$1.75 per doz.; \$12.00 per 100. Grafted plants six cents each additional.

- American Beauty.** Deep crimson.
- Bride.** The finest of all white roses.
- Bridesmaid.** Clear pink.
- Bon Silene.** Coral red, free and sweet.
- Duchess of Albany.** Satiny rose, fragrant.
- Golden Gate.** Pale lemon, tipped blush pink.
- Gloire de Dijon.** Climber, blush, shaded salmon.
- Ivory.** Pure white, large flower.
- Kaiserin Augusta Victoria.** White shaded cream color.
- La France.** Soft satiny pink.
- Liberty.** Brilliant crimson.
- Madame Caroline Testout.** Lovely clear pink.
- Madame Hoste.** Lemon color, very free.
- Marechal Niel.** Climber, finest of all yellow roses.
- Meteor.** Deep crimson.
- Mrs. J. P. Morgan.** Pink and white.
- Mrs. R. Garrett.** Light shade of pink.
- Maid of Honor.** Beautiful light pink.
- Niphetos.** Pure white long bud.
- Papa Gontier.** Coral red, very free.
- Perle des Jardin.** The best yellow.
- Sunrise.** Reddish gold.
- Sunset.** Deep apricot color.
- Souvenir de Wotten.** Cherry crimson, very sweet.
- Souvenir de President Carnot.** Ivory white, shaded pink.

SPRAY OF NEW ROSE EVERGREEN GEM.

PINK ROAMER (*Manda*).

This is without question a hybrid of the *Sweetbrier*, and carries its characteristics in bloom, while the growth, which is very rampant, and the luxurious foliage, partake more of the *Wichuraiana*. The single flowers, which are produced in close heads, are nearly two inches in diameter, bright rich pink, with almost a white centre, which lightens up the orange-red stamens, producing an effect which, combined with fragrance, makes it one of the most valuable Roses in cultivation.

EVERGREEN GEM (*Manda*).

(*Wichuraiana* x *Madame Hoste*.)

The most wonderful grower of the set, not only evergreen, but growing during mild weather in winter. Stems long branching, covering the ground closely. Foliage fine rich bronze color, closely matted. Flowers produced singly on stems, yellow, buff in bud, opening to almost white, two or three inches in diameter, perfectly double, and of a delightful Sweetbrier fragrance. This will be found most valuable for landscape work.

POMPON CHRYSANTHEMUMS.

These old-fashioned plants are again the favorites of the day on account of their great beauty in the late autumn, being the last flowers to brighten the garden long after the first frost has cut down all summer vegetation. For landscape effect they are very important, as the color of the flowers blends so well with the autumn tints of trees and shrubs. If wanted for house decoration, lift the plants early in September and pot same. After they are established they can be brought in the house. Price 15c. each; \$1.50 per doz.; \$10.00 per 100.

- Ada. Deep clear yellow.
- Acto. Bright rose, Dahlia-like petals.
- Aileen. Deep lilac pink.
- Agnes C. Light shaded bronze.
- Amelia. Blush pink tipped with clear yellow.
- Angelique. Pure white high built flower.
- Canova. Deep orange bronze.
- Caritas. Blush, shaded with deeper pink.
- Delicatissima. Outer petals light pink, centre wine color.
- Edna. White, with pink shadings, yellow centre.
- Elberta. Deep clear yellow.
- Ethel. Fine flower, blush white
- Golden Circle. Bright gold color.
- Golden Trevenna. Soft yellow, very dwarf.
- Grace Darling. Pink fringe, yellow centre.
- Gallia. Clear soft pink.
- Jeanevieve. Blush pink large flower.
- Jersey Beauty. Fine clear yellow.
- Julia. Deep reddish color.
- La Parance. Delicate pink, one of the best.
- La Purite. Pure white.
- Little Pet. Deep orange yellow.
- Lune Fleuri. Yellow button shaped.
- Magnificus. Large pure white.
- Maid of Kent. One of the best white varieties.
- Manila. Anemone flowered, deep red yellow centre.
- Mildred. Anemone flowered, pure white, blush edges.
- Mizpah. Daisy-like, bright rose color.
- Mr. Astie. Bright yellow, quilled centre.
- Mrs. Wyness. Fine pink, quilled centre.
- Oneita. Bright clear yellow.
- Prosperity. The finest pure white.
- Santiago. Deep bronze red.
- St. Crouts. Deep copper bronze.

NEW PINK CHRYSANTHEMUM (Dr. Enguehard).

The finest pink and the best new variety (see Novelty Catalogue).
Certificated by the American Chrysanthemum Society, scoring highest
points and winning the first prize for the best new pink variety.

CHRYSANTHEMUMS.

Under this heading you will find a list of carefully selected varieties for exhibition or cut flower purposes. Most of them winners of prizes at the late shows. We have many other meritorious varieties too numerous to describe, and can supply you with any sorts in cultivation should you desire same. For description and prices of new varieties, see Novelty Catalogue.

- A. J. Balfour. Large bright rose.
 Belle of Castlewood. White shaded shell pink.
 Black Hawk. Darkest crimson scarlet.
 Colonel D. Appleton. Large golden yellow.
 Colonel W. B. Smith. Bright bronze, very fine.
 Durban's Pride. Monster mauve pink.
 F. J. Taggart. Light yellow, hirsute variety.
 Florence Molyneux. Large broad petaled white.
 Garza (Anemone-Flowered). White, yellow tip.
 George W. Childs. Deep crimson.
 Glory of the Pacific. Very early, pink sort.
 Godfrey's King. Reddish crimson, bright gold reverse.
 Goldmine. Reflexed rich golden yellow.
 Golden Wedding. Rich chrome yellow.
 Helen Bloodgood. Fine clear pink.
 Hicks Arnold. Golden bronze, best for bush plants.
 H. J. Jones. Large crimson reflexed.
 H. L. Sunderbruch. Grand early yellow.
 Kate Broomhead. Large golden amber.
 Lord Salisbury. Yellow bronze reflexed.
 Major Bonnaffon. Clear yellow, perfect incurved.
 Merry Christmas. Large late white.
 Merza. Large bold white, incurved.
 Miss G. Pitcher. Bright yellow Japanese, incurved.
 Madame Carnot. Fine exhibition white.
 Madame F. Bergman. Very early white.
 Mrs. A. Hardy. First and finest hirsute form introduced.
 Mrs. Coombes. Large reflexed light rose.
 Mrs. F. Gordon Dexter. Anemone white, pink centre, large.
 Mrs. H. Weeks. Pure white Japanese incurved.
 Mrs. J. Peabody. Fine exhibition white.
 Mrs. T. W. Pockett. Deep canary yellow reflexed.
 Mrs. T. Carrington. Deep plum, shaded crimson.
 Mrs. H. Robinson. Pure white, large and early.
 Mrs. J. Jones. Large late white.
 Mrs. Perrin. Dwarf, rose pink.
 Nellie Pockett. Creamy white, Japanese reflexed.
 President W. R. Smith. Pink tinted lemon.
 Pink Ivory. Fine dwarf pink.
 Queen Alexandra. Delicate buff shaded rosy pink.

BULBS FOR SPRING PLANTING.

There is no class of plants with which there can be made such a display (for so small an outlay) as with bulbs; while they hardly require any care to grow them to perfection. Below will be found a special low offer:

BEGONIA, TUBEROUS-ROOTED.

Fine flowering plants for greenhouse or conservatory, also doing well when planted outside in a sheltered position. The flowers are single and double and of innumerable shades of color.

	<i>Each.</i>	<i>Doz.</i>	<i>100.</i>
Double varieties, mixed, fine strain.....	\$0 20	\$2 00	\$15 00
Double and Single, fine mixed.....	15	1 50	12 00
Single Yellow, Red, Rose, and White.....	15	1 50	12 00

HEMEROCALLIS KWANSO FL. PL.

For description see page 45.

LILIES.

These are the noblest of all the bulbous plants; graceful and imposing in habit, with showy, large, sweet-scented flowers of pure and chaste colors. They are invaluable in borders among Shrubbery or planted between Rhododendrons or Hardy Azaleas.

	Each.	Doz.
Lilium auratum (The Golden Banded Lily of Japan). Very fine bulbs	\$0 20	\$2 00
Lilium Longiflorum. Fine white.....	15	1 50
Lilium speciosum. Fine pink variety.....	20	2 00
Lilium speciosum album. Beautiful white form.....	20	2 00
Lilium speciosum roseum. Flowers deep rose.....	20	2 00
Lilium tigrinum splendens. Fine red flowers.....	15	1 50

GLADIOLUS.

Indispensable for planting in Shrubberies or Rose Beds, as they are a mass of bloom long after the above have passed, thus livening up what would be a dull aspect.

	Doz.	100.
Gladiolus (all colors mixed), best varieties only.....	\$0 30	\$2 00
Gladiolus (American Hybrids). Great variety of colors.	50	3 00

Tuberose. Albino. Single branching.....	25	2 50

BED OF IRIS (Fleur de Lis).

For description see page 47.

(Showing the effect of hardy plants when massed.)

HARDY HERBACEOUS PLANTS.

These are the old-time favorites found in every old-fashioned garden—plants that have been neglected for a number of years, but which of late are receiving again the proper recognition due them on account of their many good qualities.

In the first place, they are inexpensive plants, not only in their original cost, but considering that when once planted they grow and increase from year to year, while the cost of maintenance is very slight.

With a good assortment of Hardy Perennials a continuous show of flowers can be kept from the early spring until the frost cuts down all vegetation. With a judicious selection of these plants, not only can flower beds and borders be made attractive, but when proper kinds are chosen the ponds and marshes can be turned into objects of admiration. Barren rocks and sand hills alike can be made beautiful, while, if planted in an informal, careless way, the pleasing effect of a wild garden is produced.

CULTURE.—The best time for planting Hardy Herbaceous Plants is from March to May, and from September to November. They require good, rich loam to grow them to perfection, while if the soil is perfectly drained, no protection is needed in the winter, with the exception of a slight cover to prevent the sudden thawing and freezing.

In the following list, only such varieties are given as we have found from long experience to be of real merit. To save our customers trouble, we have added numerous collections of our own selection for different purposes, and which we strongly recommend.

Dozen plants at price of ten.

	<i>Each.</i>
Achillea millefolia rubra. Pretty rose colored flowers.....	\$0 20
Achillea serrata plena. "The Pearl." Pure white.....	15
Achillea tomentosa. Fine for rockwork, yellow.....	20

Hemerocallis <i>Kwanso fl. pl.</i> Fine, large red flowers.....	25

HELIANTHUS MOLLIS GRANDIFLORUS.

For description see page 45.

We grow a great many varieties not listed; special list of same will be given on application. Our Herbaceous beds are a sight to see from April to November.

	<i>Each.</i>
Hemerocallis rutilans. Fine, yellow flowers	\$0 20
Hemerocallis Thunbergii. Fragrant, golden yellow.....	20
Hibiscus moscheutos. A beautiful species.....	20
Iberis sempervirens (Evergreen Candytuft). White, flowers early	20
Iris aurea. Tall spikes of pure yellow flowers.....	15
Iris cristata. Very dwarf, lilac and yellow flowers.....	15
Iris Germanica (Fleur de Lis). 15 beautiful varieties.....	20
Iris Kaempferii (Japan Iris). 50 very beautiful varieties.....	20
Iris ochroleuca. Pure white Orchid-like flowers.....	25
Iris Siberica sanguinea. Large purple flowers, free flowering....	15
Lathyrus latifolius (Everlasting Pea). Blooms freely	20
Lepachys pinnata. Flowers fine light yellow.....	20
Liatrix scariosa (Button Snake-root). Purple flowers.....	20
Liatrix spicata (Blazing Star). Short purple spikes.....	20
Lobelia cardinalis (Cardinal Flower). Beautiful scarlet red.....	15
Lychnis Chalcedonica. Flowers, scarlet.....	20
Lychnis Haageana hybrida. Large flowers.....	25
Lysimachia Nummularia (Moneywort). Bright yellow flowers...	15
Monarda didyma. Bright, red, showy flowers.....	20
Monarda hybrida carminea. Deep carmine flowers.....	15
Monarda hybrida lilacina. Tall, free flowering plant.....	15
Monarda fistulosa. Flowers lilac-purple.....	20
Myosotis palustris semperflorens (Forget-Me-Not). Perpetual flowers	15
Oenothera fruticosa (Evening Primrose). Yellow flowers.....	20
Pachysandra terminalis. Fine dwarf evergreen plant.....	15
Paeonies herbaceous, assorted. In best varieties only.....	25
Paeonies. Pink, extra fine variety.....	35
Paeonies. Pink and white, very beautiful.....	35
Paeonies. Red, beautiful color.....	35
Paeonies. White, very fine.....	35
Paeonies. Extra large clumps, 60c. to \$1.00 each.	
Papaver altaicum. Buff-colored flowers, all summer.....	25
Papaver bracteatum. Blood-red flowers.....	20
Papaver involucratum. Very fine, large-flowered.....	20
Papaver nudicaule. Excellent for cutting.....	15
Papaver Orientale. The finest perennial Poppy.....	20
Pardanthus chinensis. Lily-like flowers.....	15
Pentstemon barbatus. Deep, scarlet flowers.....	20
Pentstemon Digitalis. Tall, white flowered.....	20
Phalaris arundinacea fol. var. Ribbon grass.....	15
Phlox amoena. Favorite border plants, early.....	15
Phlox paniculata, in assorted varieties. The very finest sorts...	15
Phlox paniculata, in 20 varieties.....	25
Phlox paniculata. "The Pearl." Flowers, pure white, the finest.	20
Phlox subulata alba. A beautiful white form.....	15
Phlox subulata atropurpurea. Deep colored flowers.....	15
Phlox subulata (Moss Pink). Very dwarf, early.....	15
Platycodon grandiflora. Large bells of blue color.....	20
Polemonium coeruleum album. White variety of above.....	25
Polemonium coeruleum (Jacob's Ladder). Blue flowers.....	20
Polygonum cuspidatum crispulum. Feathery white flowers.....	35
Polygonum Sachalinense. Handsome bushy plant.....	30
Primula veris (English Primrose). Choice spring flowers.....	20
Pyrethrum roseum album. Pure white flowers.....	25
Pyrethrum roseum carneum. Flesh colored flowers.....	25
Pyrethrum roseum, in assorted varieties.....	25
Pyrethrum roseum. Rose colored Daisy.....	25
Pyrethrum roseum sanguineum. Rich crimson flowers.....	25
Pyrethrum uliginosum (The Giant Daisy). White flowers, in fall.	20
Rudbeckia Californica. Fine, pure yellow.....	15
Rudbeckia fulgida. Orange yellow, disc dark purple.....	20
Rudbeckia (Golden Glow). Double large flowers.....	15
Rudbeckia maxima (Cone-flower). Large yellow flowers.....	25
Rudbeckia speciosa. Yellow, dark purple disc.....	20
Rudbeckia subtomentosa. Fine for borders.....	20

HEMEROCALLIS THUNBERGII.
For description see page 47.

RUDBECKIA CALIFORNICA.
For description see page 47.

	<i>Each.</i>
<i>Sedum album</i> . Trailing, white flowers	\$0 15
<i>Sedum carneum</i> . Trailing, pale rose flowers.....	15
<i>Sedum Fabarium</i> (Stone Crop). Rosy pink flowers.....	20
<i>Sedum populifolium</i> . Upright habit, white flowers.....	25
<i>Sedum Spectabile</i> . One of the best border plants.....	20
<i>Sedum spurium splendens</i> . Trailing, yellow flowers.....	15
<i>Silphium perfoliatum</i> (Cup Plant). Tall plant.....	25
<i>Solidago</i> (Golden Rod), many varieties for wild gardens:.....	15
<i>Spiraea aruncus</i> (Meadow Sweet). White long spikes.....	25
<i>Spiraea astilboides</i> . Flowers white, graceful.....	25
<i>Spiraea filipendula plena</i> . White double flowers.....	25
<i>Spiraea Japonica</i> . Pure white flowers.....	15
<i>Spiraea Japonica grandiflora</i> . Larger and closer flowers.....	25
<i>Spiraea palmata</i> . Brilliant crimson flowers.....	25
<i>Spiraea ulmaria plena</i> . Double white flowers.....	25
<i>Stachys lanata</i> . White, silky foliage.....	15
<i>Statice latifolia</i> . Blue flowers on large panicles.....	25
<i>Thymus serpyllum</i> . Trailing evergreen, pink flowers.....	15
<i>Thymus serpyllum album</i> . Trailing evergreen, white flowers..	15
<i>Tradescantia virginica</i> . Blue flowers.....	15
<i>Tunica saxifraga</i> . Small pink flowers.....	20
<i>Verbascum Phoeniceum</i> . Red, white and violet flowers.....	20
<i>Veronica longifolia subsessilis</i> . Deep rich blue.....	25
<i>Veronica rupestris</i> . Dark blue flowers.....	20
<i>Veronica spicata</i> . Bright blue flowers.....	20
<i>Veronica Virginica</i> . Tall spikes of white flowers.....	20
<i>Vinca minor</i> (Periwinkle). Fine for growing under trees.....	10
<i>Vinca minor fl. pl.</i> Double flowers, green foliage.....	15
<i>Vinca minor fol. var.</i> Foliage, variegated, handsome.....	20
<i>Yucca filamentosa</i> . Fine spikes of white flowers.....	35

CLEMATIS RECTA (Bush Clematis).

See page 45 for description.

SPECIAL COLLECTIONS.

With our long experience in Hardy Perennials, we will be pleased to make up collections suitable for any purpose, at the following reduced prices:

Our Own Selection, one of each.

	<i>Collection of 12.</i>	<i>Collection of 25.</i>	<i>Collection of 100.</i>
For shady situations	\$1 50	\$3 00	\$12 00
For sunny situations	1 50	3 00	12 00
For borders	1 50	3 00	12 00
For rockwork	1 50	3 00	12 00
For wild gardens	1 25	2 50	10 00
For edging	1 25	2 50	..
For shrubberies	1 75	3 50	14 00
For covering rocks and ledges.....	1 50	3 00	..
For dry grounds	1 50	3 00	..
For wet grounds	1 75	3 50	..

Intending purchasers of large quantities of Ornamental Trees, Shrubs and Vines or Fruit Trees, Shrubs and Vines. will do well to correspond with us and get our prices for reliable goods, and advice what and how to plant. You will not only save money by contracting with us for your planting, or anything in the Landscape Department, but you will have efficient work done. the result of years' hard study, close observation, and large practical experience. Please read our remarks on Landscape Gardening.

—————

Plant Hardy Plants, Trees, Shrubs or Vines, and they will increase yearly in size and beauty. Once planted, they live forever.

GREENHOUSE FOLIAGE PLANTS.

This is a class of plants which is becoming more popular every day. Their fine marked foliage and graceful habit make them great favorites. There is nothing equal to a house filled with a collection of these plants.

	<i>Each.</i>
Abutilon Souv. de Bon. Fine sort	\$0 25
Abutilon Sawitzii. Dwarf habit, green and white foliage.....	25
Abutilon Thompsoni. Green, with yellow blotches	25
Aglaonema picta. Bright foliage	75
Aglaonema Roblenii. Good decorative plant	75
Ananassa sativa variegata. The variegated pineapple	3 00
Ananassa Porteana. Fine variety, of easy culture.....	3 00
Araucaria excelsa (Norfolk Island Pine)	3 00
Araucaria excelsa glauca. A variety with bluish tint	4 00
Araucaria excelsa glauca compacta. Effective	5 00
Araucaria Braziliensis. Graceful, dark green species	1 00
Alocasia macrorhiza variegata. White and green	1 00
Alocasia metallica. Massive metallic-bronze	2 00
Alocasia Sanderiana. Rare species	3 00
Alocasia Sedeni. Bronze-leaves, with white midrib	2 00
Anthurium crystallinum. Massive, velvety foliage	1 00
Anthurium grande. Long, bronze foliage	1 00
Anthurium magnificum. Showy	1 00
Anthurium regale. Good, hardy variety	1 00
Anthurium Veitchii. Long leaves	3 00
Anthurium Waroqueana. Noble plant	3 00
Asparagus decumbens. Drooping species	75
Asparagus plumosus. Climbing plant, indispensable	25
Asparagus nanus. Very fine for bouquets	25
Asparagus Sprengeri. Graceful drooping species	25
Asparagus tenuissimus. Fine, feathery foliage	25
Aralia Chabrierii. Dark green pinnate leaves	1 00
Aralia filicifolia. Graceful fern-like foliage	50
Aralia Guilfoylei. Beautiful variegated foliage	50
Aralia gracillima. Fine palmately divided leaves.....	1 00
Aralia Papyrifera. Velvety, grayish foliage	75
Aralia Sieboldii. Broad, massive leaves	50
Aralia Sieboldii variegata. Variegated form of the above.....	1 50
Aspidistra lurida. Most durable, effective plant.....	75
Aspidistra lurida variegata. White striped form	1 00
Bambusa arundinacea. Graceful and decorative	2 00
Begonia argentea guttata. Foliage spotted with white	50
Begonia maculata. Tall, white spotted	30
Begonia manicata aurea. Yellow, variegated leaves	75
Begonia metallica. Rich colored foliage	25
Begonia Rex. In 12 varieties	25c. to 50
Bertolonia guttata. Spotted variety	75
Bertolonia marmorata. Silvery veins	1 05
Bertolonia Van Houttei. Choice stove-plant	2 00
Bomeria Argentea. Silvery foliage	50
Billbergia Liboniana. Interesting pineapple	1 00
Bromeliads. In 20 varieties	\$1 00 to 3 00
Caladiums. In best varieties	35c. to 1 00
Campylobotrys Ghiesbrechtii. Reddish bronze foliage	50
Campylobotrys Ghiesbrechtii variegata. White and red.....	75
Costus zebrina. Large, massive green leaves	75
Croton. In choicest 25 varieties	50c. to 1 00
Cissus discolor. Beautiful climber	50
Cyanophyllum magnificum. Noble plant	2 50
Cycas circinalis. More graceful foliage than Revoluta	5 00
Cycas revoluta (Sago Palm). Very useful plant	1 00
Cyperus alternifolius. Fine decorative plant	25
Cyperus alternifolius variegatus. Foliage variegated	1 00
Cyperus gracilis. Fine compact growing plant	25
Cyperus laxus variegatus. Dwarf variety, well marked.....	50
Dieffenbachia Baraquiniana. White and green foliage	50

ALOCASIA METALLICA.
For description see page 51.

PANAX VICTORIAE.
For description see opposite, page 53.

Each.

Dieffenbachia Bausei. Yellow and white foliage	\$0 75
Dieffenbachia Bowmanni. Yellow foliage	75
Dieffenbachia picta. Green leaves, spotted white	75
Dionaea muscipula. (Venus' Fly-Trap)	50
Dracaena amabilis. Green, white and pink foliage	1 00
Dracaena Draco (Dragon Tree). Fine massive plant	1 00
Dracaena fragrans. Broad green arching leaves	50
Dracaena Godseffiana. Compact bushy plant, with spotted foliage	50
Dracaena hybrida. Red, white and pink foliage	1 00
Dracaena indivisa. Narrow leaved, for vases	50
Dracaena Lindenii. Green with yellow stripes	2 00
Dracaena Massangeana. Green with yellow middle	1 75
Dracaena Sanderiana. Narrow leaves, white and green.....	50
Dracaena Shepherdi. Broad red and yellow foliage	50
Dracaena terminalis. Bright red and rose foliage	50
Dracaena terminalis stricta. Broader foliage	1 00
Dracaena Youngii. Deep purple foliage	50
Dracaena. 25 other varieties, according to size	50c. to 3 00
Eucalyptus globulus. Australian blue gum tree	25
Eucalyptus citriodora. Slender habit, lemon scented	35
Ficus radicans fol. var. Creeping species, small white and green foliage	50
Ficus repens. Useful for covering walls	25
Ficus elastica. The well-known rubber-plant	50
Ficus elastica variegata. Yellow and green foliage	2 50
Ficus Parcelsii. White splashed leaves	1 00
Fittonia argyreneura. Beautiful stove evergreen plant	25
Fittonia Verschaffeltii. Midrib of foliage dark red	25
Grevillea robusta. Foliage plant of graceful habit	50
Hedera (Ivy). In varieties for greenhouse or garden	25
Heliconia aurgo-striata. Strikingly handsome plant	2 00
Hibiscus Cooperi. Nicely variegated foliage	50
Laurus nobilis (Sweet Bay Tree). A very decorative plant for lawns. Sizes and prices on application.	
Maranta bicolor. Green, with blotches of dark olive	35
Maranta Kerchoveana. Green, with purplish blotches	50
Maranta Legrelliana. Green, with a band of white	50
Maranta Lietzii. Deep metallic green	50
Maranta Makoyana. Distinct markings	1 00
Maranta Massangeana. Foliage beautifully marked	50
Maranta micans. Shiny green and white	50
Maranta Porteana. Bright green, striped with white	50
Maranta princeps. Rich dark green leaves	1 00
Maranta pulchella. Good variety for general purposes	50
Maranta zebrina (Zebra Plant). Velvety light green	50
Maranta undulata. Dark green, with white midrib	50
Maranta arundinacea variegata. Beautiful leaves	75
Maranta Goveana. Light green, with dark markings	35
Mimosa pudica (Sensitive Plant). Interesting	25
Musa Cavendishii (Banana Plant). For greenhouse fruiting....	2 00
Nepenthes. In best varieties	\$3 00 to 5 00
Ophiopogon Jaburan fol. var. Dwarf, variegated plant.....	50
Panicum Variegatum. White striped foliage	15
Panax Victoriae. Variegated leaved stove shrub	50
Pandanus graminifolius. Pretty dwarf growing variety	50
Pandanus utilis. A beautiful house plant	50
Pandanus Veitchii. Long, narrow, variegated leaves	1 00
Paulinia thalictrifolia. Beautiful fernlike foliage	75
Peperomia argyrea. Fleshy leaves, very handsome	35
Philodendron spectabile. Large, massive foliage	1 00
Philodendron pertusum. Grand foliage	1 00
Phrynium variegatum. Beautiful stove-plant	75
Philanthus nervosus pictus. Beautiful colored foliage	50
Photos aureus. Creeping plant, golden foliage	50
Pothos argyrea. Silvery green leaves, creeping habit	50
Phyllotaenium Lindenii. Variegated leaves, showy	1 00

	<i>Each.</i>
Reineckia carnea. Dwarf, bright green, very hardy	\$0 25
Reineckia fol. var. Beautifully variegated, useful plant	50
Rhodea Japonica variegata. Variegated plant	75
Sansevieria Zeylanica. Curious zebra striped foliage	1 00
Sonerilla Hendersonii. Beautiful silvery foliage	50
Sphaerogyne latifolia. Massive, velvety green leaves	1 50
Strobilanthes Dyerianus. Bright foliage	25
Tradescantia discolor. Green and purple leaves	50
Vreesia splendens. Yellow flowers	1 50
Vinca major variegata. Light green, white margins	35
Zamia integrifolia. A very decorative plant	1.00

GREENHOUSE FLOWERING PLANTS.

This useful class comprises both dwarf and climbing kinds. Only such are listed as have been found to be the best and most popular varieties. We will be pleased to quote prices on any others not listed, or for large specimens.

AZALEAS.

There is no greenhouse shrub that gives such satisfaction as a good plant and variety of Azalea. The following dozen varieties are the cream of the Azaleas, while we offer well furnished plants set with buds at the following low prices: Plants, 9-10 inches in diameter, 75 cts. each, \$7.50 per doz.; 10-12 inches in diameter, \$1.00 each, \$10.00 per doz.; extra large, 12-15 inches in diameter, \$1.50 each; \$15.00 per doz. Extra large specimens, price on application.

A. Borsig. Pure double white.

Madame Van der Cruysen. Semi-double bright rose.

Sigismund Rucker. Lilac rose and white.

Bernard Andrea Alba. Double white.

Deutsche Pearl. Very early double, pure white.

Imperatrice des Indes. Large double rose, edged white.

Souv. de Prince Albert. Double white and lilac.

Dr. de Moor. Double, intense rose.

Empereur de Bresil. Rose and white, large double.

Cocarde d'Orange. Fine double, orange red.

Simon Mardner. Very deep pink, shape of a Camellia.

Vervaeana. A very large double, rose and white.

	<i>Each.</i>
Aeschinanthus Lobbianus. Bright red flowers	\$1 00
Amaryllis. Choice hybrids. Fine, large red flowers	1 00
Anthurium Andreanum. Orange red, with yellow	2 00
Anthurium Brownii. Deep blood red flower	3 00
Anthurium Clarkiana. Light red, shaded with pink	3 00
Anthurium Ferrierense. Pink with white, beautiful	2 00
Anthurium Reynoldsiana. Shining pink, with white	3 00
Anthurium Scherzerianum. Compact growth, brilliant	1 00
Allamanda Hendersonii. Stove plant, yellow flowers	75
Allamanda nobilis. Bright yellow flowers	75
Allamanda nerifolia. Fine bushy stove plant	50
Acacia. In varieties	50c. to 3 00
Aristolochia elegans. Beautiful flowering climber	25
Aristolochia grandiflora (the Pelican Flower). Interesting plant.	1 00
Aphelandra aurantiaca Roezlii. Bright scarlet flowers	75
Begonia glaucophylla scandens. Coral red flowers.....	50
Begonia Gloire de Lorraine. Grand winter flowering plant	50
Begonia Haageana. Large trusses of white flowers	50
Begonia rubra. Very free flowering plant	25
Begonia incarnata. Fine for cutting	25
Begonia. In many varieties	25c. to 50
Bougainvillea. In varieties	15c. to 25
Bougainvillea glabra Sanderiana. Finest climbers in cultivation.	50
Camellias (in varieties). According to size	75c. to 3 00
Cherokee Rose (Rosa Sinica). Fine white flowers	25

	<i>Each.</i>
Clerodendron Balfouri. White and red flowers	\$0 50
Cassia corymbosa. Large numbers of yellow flowers	50
Chorizema ilicifolia. Handsome red flowers	75
Chrysanthemum frutescens (Paris Daisy)	25c. to 2 00
Chrysanthemum frutescens Etoile d'Or. Yellow form	25
Costos igneus. Showy bright orange flowers	50
Crinum amabile. Large red flowers	3 00
Daphne odorata. Sweet scented evergreen plant.....	1 00
Dichorisandra coerulea. Spikes of deep blue flowers	75
Diplandenias (in varieties). Choice	\$1 00 to 3 00
Erica (in varieties). Choice greenhouse plants	\$1 00 to 3 00
Eucharis Amazonica. Beautiful, large white flowers	25
Eucharis candida. White, free flowering	25
Euphorbia jacquinaeflora. Winter flowering plant	50
Eupatorium iathinum. Trusses of purple flowers	50
Francesia exima. Blue flowers	1 00
Francesia latifolia. Blue flowers	1 00
Gardenia florida. White, sweet-scented flowers	50
Gardenia Veitch's var. Free flowering, the best	50
Genistas (in varieties). According to size	25c. to 3 00
Geraniums. In the best varieties	15
Hydrangea (in varieties). According to size	25c. to 5 00
Hibiscus. In leading varieties	25c to 50
Heliotrope. Useful, sweet-scented plant	10
Hedichium coronarium. Trusses of white scented flowers	50
Imantophyllum cyrthanthiflorum. Drooping flowers	1 00
Imantophyllum minatum. Large orange red flowers	1 00
Ixora (in varieties). Free flowering stove plant	1 00
Justicia speciosa. Free flowering plant	25
Jasminum gracillimum. White, sweet-scented flowers	50
Jasminum grandiflorum. Yellow flowers	50
Jasminum Sambac. White, sweet-scented flowers	50
Lapageria rosea. Beautiful, waxy red flowers	3 50
Lapageria alba. Useful as the above, white variety	3 50
Libonia floribunda. Scarlet, yellow-tipped flowers.....	25
Linum Trigynum. Deep orange flowers	25
Myenia erecta. Stove plant, beautiful blue flowers	50
Pavetta Borbonica. Fine red flowers.....	1 50
Pelargonium (in varieties)	35c. to 50
Pleroma elegans. Large blue flowers	50
Plumbago Capensis. Blue flowers	25
Plumbago Capensis alba. White flowers	25
Poinsettia pulcherrima. Bright scarlet bracts	50
Poinsettia pulcherrima alba. White variety	50
Poinsettia pulcherrima plenissima. Double variety	50
Passiflora. In varieties. Elegant climbers	25c. to 1 00
Reinwardtia tetragyna. Large yellow flowers	50
Rubus rosaeflorus. Double white flowers	50
Ruellia formosa. Fine scarlet flowers	35
Ruellia macrantha. Large purple flowers	50
Rhynchospermum jasminoides. Greenhouse climber	50
Seriographis Ghiesbretii. Yellow lasting flowers	50
Solandra grandiflora. Lily-like flowers, fine	1 00
Stephanotis floribunda. White, waxy flowers	1 00
Salvia. In varieties	25
Streptosolen Jamesonii. Orange-colored flowers	25
Swainsonia galegifolia alba. Bunches of white flowers	35
Stigmatophyllum ciliatum. Yellow orchid-like flower	75
Stevia. Useful white, winter flowering plant	25
Strelitzia regina (The Bird of Paradise).....	1 50
Tecoma Capensis. Orange-scarlet flowers	25
Thyscanthus rutilans. Spikes of pink flowers	50
Toxicophlea spectabilis. White fragrant flowers	1 00
Veronica. In varieties	25

Other varieties and larger sizes, prices on application.

Many other varieties as well as large specimens in stock. Write for list or visit our 32 greenhouses.

LICUALA GRANDIS.

For description see opposite, page 57.

Palms as well as other greenhouse plants being one of our specialties, we have special facilities for filling new greenhouses and conservatories completely or adding to existing collections of plants. Estimates furnished on application.

Overgrown specimens exchanged or bought.

PALMS.

In the whole vegetable kingdom there is no family of plants so graceful, attractive, and one that deserves to be so generally cultivated, as palms. Most kinds are invaluable for decorative purposes and house culture. We have omitted to price any of the varieties, as the prices are governed by the size of the plant, and vary from 50c. to \$5.00 each, according to size and kinds, of which we would be pleased to give particulars on application.

- Areca Baurei*. Hardy, cool plant, quick grower.
- Areca lutescens*. Bushy and decorative, very useful.
- Areca rubra*. Striking species for warm house.
- Areca sapida*. Cool and hardy palm.
- Areca Verschaffeltii*. Very ornamental, striking plant.
- Atalea mariposa*. Rare and noble plant.
- Brahea edulis*. Cool, hardy variety.
- Brahea filamentosa*. Ornamental species, very hardy.
- Brahea glauca*. Bluish foliage, rare, for cool house.
- Chamaedorea Pringellii*. Rare species of dwarf growth.
- Caryota urens*. "Fish Tail Palm" characteristic.
- Cocos Bonnettii*. Fine, graceful hardy plant.
- Cocos plumosa*. Tall, feathery, graceful palm.
- Cocos Weddelliana*. Very graceful, useful small palm.
- Cocos Romansoffiana*. Tall growing kind.
- Chamaerops elegans*. Very hardy, tall growing.
- Chamaerops humilis*. Dwarf, hardy plant.
- Chamaerops Fortunii*. Compact, useful palm.
- Corypha Australis*. Very decorative.
- Corypha gebanga*. Rarely cultivated, fine plant.
- Erythea edulis*. Very hardy variety.
- Euterpe edulis*. Fine, graceful arching fronds.
- Geonoma elegans robusta*. Beautiful and rare plant.
- Geonoma gracilis*. Very ornamental, like *Cocos*.
- Geonoma imperialis*. Graceful variety, dwarf growth.
- Geonoma princeps*. Distinct species.
- Geonoma Schottiana*. Fine, imposing plant.
- Kentia Belmoreana*. The most useful palm for decoration.
- Kentia Canterburyana*. Larger foliage, rare species.
- Kentia Fosteriana*. Tall and graceful, hardy and useful.
- Kentia McArthurii*. Distinct species.
- Latania borbonica*. Very useful palm, quick grower.
- Latania rubra*. Choice and rare variety.
- Licuala grandis*. A noble species, large, broad leaves.
- Livistonia rotundifolia*. Dwarf and handsome.
- Livistonia peltata*. Fine species, shiny, broad leaves.
- Oreodoxia regia*. The royal palm, tall and graceful.
- Phoenix reclinata*. Useful, decorative plant, hardy.
- Phoenix pumila*. Compact species.
- Phoenix Canariensis*. Handsome variety, useful for decoration.
- Phoenix dactylifera*. The date palm.
- Phoenix rupicola*. Most graceful variety for exhibition.
- Rhaphis flabelliformis*. Hardy and ornamental.
- Rhaphis humilis*. Useful variety for decoration.
- Sabal Adansonii*. A striking palm, hardy and useful.
- Sabal glauca*. Handsome species.
- Sabal umbraculifera*. Useful, decorative plant.
- Seaforthia elegans*. Quick growing palm, graceful.
- Many other varieties. Also large specimens. Prices on application.

We have a large stock from seedlings up to large specimens 20 feet high. Visit our tropical forest.

ADIANTUM CAPELLUS VENERIS IMBRICATUM.
(The Hardy Farleyense.)

For description see opposite, page 59.

PLATYCERIUM ALCICORNE (The Stag Horn Fern).

For description see opposite, page 59.

FERNs.

Besides these varieties we have a large lot of specimens and half specimens. Prices of same will be furnished on application.

	<i>Each.</i>
Adiantum capellus veneris. A dwarf variety	\$0 25
Adiantum capellus veneris imbricatum (Hardy Farleyense).....	25
Adiantum cardiochlaena. Large growing. Fine for specimens..	1 00
Adiantum cuneatum. The well known Maiden Hair Fern.....	25
Adiantum cuneatum variegatum. A variegated form of the above	50
Adiantum dolabriforme. Fine for hanging baskets.....	1 00
Adiantum Farleyense. The finest of all this class.....	1 00
Adiantum gracillimum. Very fine foliage, long fronds.....	50
Adiantum grandiceps. Fronds crested on the end.....	50
Adiantum monochlamys. A dwarf variety from Japan.....	1 50
Adiantum O'Brienii. A very hardy variety	25
Adiantum pubescens. A beautiful growing variety.....	25
Adiantum regina. A dwarf variety. Large foliage.....	50
Adiantum trapeziforme. Large sort. Fine for exhibition.....	50
Adiantum venustum. A delicate leaved pretty variety.....	25
Adiantum Williamsii. The golden Maiden Hair.....	50
Angiopteris evecta. Enormous dark green fronds	7 50
Aspidium amabile. Dark green heavy fronds	50
Aspidium capense. A beautiful hardy variety	50
Aspidium tensemense. A dwarf dense sort	25
Aspidium viridescens. Fine arching fronds. Japanese variety..	1 50
Asplenium bulbiferum. Beautiful arching fronds	75
Asplenium nidus avis (Bird's Nest Fern).....	2 00
Asplenium nidus avis Australasica. A variety of the above....	2 00
Blechnum occidentale. Dwarf, hardy variety.....	25
Cyrtomium falcatum (Holly Fern). Glossy green foliage.....	25
Cyrtomium caryotaedium. More dwarf than the above.....	25
Davallia bullata. Japanese design fern.....	1 00
Davallia elegans. Long, arching fronds.....	2 50
Davallia Fijiensis plumosa. Arching, feathery fronds	1 50
Davallia platyphilla. An elegant variety.....	2 00
Davallia Mooreana. Long, lacy, arching fronds.....	1 50
Gymnogramma Argyrophilla (The Silver Fern)	1 00
Gonophlaebium subariculatum. Long, drooping fronds.....	1 50
Lygodium scandens. The climbing fern.....	25
Microlepia hirta cristata. Crested, light green fronds.....	50
Nephrolepis Bauseii. Upright crested fronds	1 50
Nephrolepis exaltata. Grand, arching fronds	50
Nephrolepis exaltata Bostoniensis (Boston Fern)	50
Nephrolepis exaltata Piersonii (Pierson Fern)	50
Nephrolepis exaltata Anna Foster (Foster Fern)	50
Nephrolepis davalloides furcans. Fine crested plant	1 00
Nephrolepis Philippinense. Long, narrow fronds.....	50
Nephrolepis tuberosa. Upright, arching leaves.....	50
Onychium Japonicum. A fine fronded dense variety	25
Platycterium alcornae (Stag Horn Fern).....	1 00
Platycterium alcornae majus. A fine form of the above.....	2 50
Platycterium Aethiopicum. Large, broad fronds	3 50
Platycterium Biforme. A fine grower	5 00
Platycterium Hillii. A rare variety	5 00
Platycterium Willinkii. Long, narrow, horn-like fronds.....	5 00
Platycterium Wallichii. Very rare plant	5 00
Polypodium aureum. Glauous colored leaves.....	25
Polystichium angulare. A hardy variety. Very pretty	25
Polystichium mucronatum. Rare, handsome variety.....	1 00
Pteris adiantoides. Fronds resemble Adiantum	25
Pteris argyrea. Beautiful silver variegation.....	25
Pteris albo lineata. One of the best varieties.....	25
Pteris chinensis. Dark green foliage.....	25
Pteris Guilbertii. Fronds crested on the end	25
Pteris longifolia. Long, arching fronds	25
Pteris palmata. Palmate foliage	25
Pteris tremula. Long, beautiful fronds	25
Pteris Wallichii. Makes a grand specimen.....	25
Todea superba. Beautiful, feathery fronds.....	3 50

TREE FERNS.

These are considered the finest and most graceful of all plants used for decoration. For the conservatory, greenhouse, or for general decorative purposes there are no plants that can equal them. We have them in all sizes, from one to twelve feet high. Prices and sizes given on application.

Alsophila Australis.

Alsophila excelsa.

Blechnum Braziliensis.

Cibotium Schiedeii.

Cibotium glaucium.

Cyathea dealbata.

Cyathea medularis.

Cyathea Smithii.

Dicksonia Antarctica.

Dicksonia squarrosa.

Lomaria gibba.

Lomaria intermedia.

Representatives of Tree Ferns should be in every collection.

SELAGINELLA.

Beautiful dwarf Ferns or Mosses, suitable for rockwork and pan culture.

	<i>Each.</i>
<i>Africana.</i> Grand, feathery-looking fronds.....	\$0 25
<i>Apis.</i> A dwarf running variety	25
<i>Brownii.</i> Very dwarf variety	25
<i>Caesia.</i> Beautiful colored leaves. Dwarf	25
<i>Caesia arborea.</i> A climbing or running variety	50
<i>Caulescens.</i> A beautiful dense sort	25
<i>Cognata.</i> An upright variety	25
<i>Denticulata</i> (Florida Moss). Spreading dwarf. Green	25
<i>Denticulata aurea.</i> A yellow variety of the above.....	25
<i>Emelliana.</i> The most useful of the whole family	25
<i>Grandis.</i> A large growing variety	50
<i>Haematodes.</i> Fine variety. Good grower	25
<i>Martensii.</i> Dark green foliage	25
<i>Martensii variegata.</i> Variegated form of the above	25
<i>Pitcheriana.</i> Variety having red stems	50
<i>Pubescens.</i> A strong growing sort	25
<i>Regalis.</i> A beautiful sort	50
<i>Serpens.</i> Very dwarf sort	25
<i>Viticulosa.</i> One of the best	25

Prices on special sizes and varieties on application.

GROUP OF SMALL CACTI.

We have a large assortment of this very interesting plant, including some very rare and large specimens from the collection of the late Louis Menand, of Albany. Come and examine the collection, or write for prices of varieties desired.

GREENHOUSE VINES, CLIMBERS AND CREEPERS.

For training to the rafters of the greenhouse, for covering the end walls, planting among rockwork, or for hanging along the edges of benches, this class of plants have their use in the greenhouse. The majority of these produce rare and handsome flowers which brighten the greenhouse or are found useful for cut flowers.

	<i>Each.</i>
Allamanda Hendersonii. Strong grower, large yellow flowers . . .	\$0 50
Allamanda Williamsii. Forms compact bush. Flowers yellow . . .	50
Aristolochia elegans. A rapid grower, with creamy and deep purple flowers	50
Asparagus decumbens. Lace-like climber, or drooping vine	50
Asparagus plumosus. Feathery, graceful green foliage	50
Asparagus Sprengerii. Foliage bright glossy green	35
Asparagus tenuissimus. Fluffy, delicate foliage	25
Bignona venusta. Rapid grower, with coral red flowers	1 50
Bignonia capense. Bushy grower, large, orange colored flowers . .	50
Bougainvillea glabra Sanderiana. Strong and rapid grower, flowers brilliant rosy crimson, produced in early summer . . .	50
Cissus discolor. Mottled and marbled crimson and green foliage	25
Clerodendron Balfourii. A fine, rapid grower, with red flowers, enveloped in a creamy white calyx	50
Dipladenia amabilis. Large, soft pink flowers	1 50
Dipladenia Boliviensis. Pure white waxy flowers, <i>rare</i>	2 50
Dipladenia profusa. Free flowering variety, rose-colored flowers	1 50
Ficus repens. Small, green foliage, fine for covering walls	25
Ficus radicans variegata. A pretty variegated trailing variety . .	50
Hoya carnosa variegata. Thick, variegated foliage, waxy pink and white flowers	50
Jasminum gracillimum. Clusters of pure white fragrant flowers.	50
Jasminum grandiflorum. Large, yellow fragrant flowers	50
Lapageria rosea. Same as above. Flowers rich rosy crimson . . .	3 50
Lapageria rosea alba. Greenhouse climber. White, waxy, bell-shaped flowers, lasting a long time in bloom	3 50
Passiflora Constance Elliott. Pure white, pink at base of petals . .	50
Passiflora coerulea. Large, blue flowers, produced freely	50
Passiflora fasciata. Beautiful purple foliage, white flowers	50
Passiflora princeps. Flowers bright red, in clusters	2 50
Piper nigrum. A pendent variety, with dark green leaves	25
Plumbago capense. Cerulean blue flowers, very free	50
Plumbago capense alba. White flowering variety of the above . .	50
Plumbago coccinea. Flowers bright satiny carmine color, borne on long racemes	50
Pothos aurea. Foliage variegated, blotches of creamy yellow . . .	25
Pothos argyrea. Silvery mottled foliage	25
Rhynchospermum Jasminoides. Grand greenhouse climber, producing in spring masses of white, sweet-scented flowers	50
Rhynchospermum Jasminoides variegata. A variegated form . . .	50
Rosa sinica (Cherokee Rose). Strong grower, beautiful glossy foliage and large, single, white flowers	50
Solandra grandiflora. Large, lily-like flowers, creamy color . . .	75
Solanum Jasminoides. Flowers pure white, borne in clusters . . .	25
Solanum Wendlandii. Strong grower, producing in summer and fall large clusters of blue flowers	25
Stephanotis floribunda. Glossy green foliage, with clusters of pure white sweet-scented flowers	50
Stigmaphyllon ciliatum. Yellow flowers, resembling orchids	75
Swainsonia galegifolia alba. Flowers pure white	25

We have many large size specimens for immediate effect. Prices on application.

CYPRIPEDIUM INSIGNE (Yellow variety).

Price on application of this or any other rare variety not catalogued.

We have the largest commercial collection of Orchids in America. Call and convince yourself.

Orchids are the easiest plants to grow.

Orchids are as cheap as any plants.

Orchids are the plants of the future.

ORCHIDS.

These are undoubtedly the coming flowers, and every greenhouse or conservatory should have at least a few of these floral gems. They are of easy culture, and will grow in any ordinary greenhouse or conservatory, together with other common plants, such as Geraniums, Fuchsias, etc. Most of the varieties can be grown in baskets or on blocks, and suspended from the roof, thus not utilizing any bench room. Orchids, when in bloom and kept in cool places, will last from four to ten weeks in perfection, so that any one having a small collection of Orchids will have some plants in bloom all the year round. Amateurs intending starting to grow Orchids should write for list of such varieties as are best suitable for beginners. The following are a few cultural points: Orchids require a season of growth and a season of rest, corresponding with the wet and dry seasons of their native country. When they are making new growths, they should receive a liberal supply of water until the maximum is reached, when the new bulb is nearly full size; then it should receive just enough water to keep the bulbs from shriveling; as soon as it shows the sign of bloom, water it again until it has done flowering.

The prices quoted are for nice, thrifty, flowering size plants. Prices and sizes of various specimens will be cheerfully given to intending purchasers on application. Complete list of other Orchids on application.

CATTLEYA.

The Cattleyas are among the most beautiful of the whole Orchid family.

The flowers are all large and elegant, and cannot be surpassed for their sparkling richness and depth of color. They can be easily grown in baskets or pots, with a compost of fibrous peat and moss, with good drainage and a liberal supply of water while growing, but as soon as they have finished their growth, the supply must be greatly decreased.

	<i>Each.</i>
Aurea. Yellow and crimson, rare	\$5 00
Bowringiana. Rich purple, easily grown	3 00
Citrina (Tulip Orchid). Lemon, sweet scented	1 00
Chrysotoxa. Rich crimson, red and yellow, rare	5 00
Dowiana. Rich, red and yellow, grand	4 00
Gaskelliana. Rosy lilac, free grower	2 00
Gigas. Rich, rosy, yellow eyes	3 00
Gigas Sanderiana. Rich crimson, yellow eyes	5 00
Guttata. Brown and pink, in large trusses	3 00
Harrisoniae. Lilac, easy growing plant	2 00
Intermedia. Rosy lilac, free flowering species	2 00
Labiata (vera). Rosy pink and crimson lip	1 50
Leopoldii. Brown and pink, large trusses	3 00
Mendellii. White and rose, summer flowering	3 00
Mossiae. Rose to crimson red, and yellow	2 00
Percivaliana. Rose to crimson, winter flowering	2 00
Skinnerii. Rich rose, in large spikes	2 00
Schroderae. Soft lilac, yellow throat	3 00
Speciosissima. Large, pink to crimson	2 00
Trianae. Lilac rose to crimson, the best	2 00
Trianae alba. Rare, white form (price on application).	
Warnerii. Rich rose and crimson	3 00

CYPRIPEDIUM

They are the easiest grown of all Orchids. Many of them have beautiful marked foliage as well as flowers, and on this account should have a place in every collection. To be grown to perfection they like abundance of moisture and plenty of drainage, being potted in peat fibre and sphagnum. The flowers last from four to sixteen weeks on a plant, and, when cut, two to four weeks. The star (*) after the name denotes the variety to be a hybrid.

Cypripedium—continued.

	<i>Each.</i>
Albo Purpureum.* Beautiful rosy pink	\$3 00
Arthurianum.* Finely dotted and lined	3 00
Ashburtoniae.* Reddish brown and white	2 00
Barbatum. White and deep purple	1 00
Barbatum superbum. Fine form	2 00
Barbatum Warnerianum. Fine variety	2 00
Bellatulum. White, spotted crimson	2 00
Boxallii. Yellowish green, shaded purple, brown	2 00
Boxallii superbum. Fine form	4 00
Brownii.* Rare hybrid	5 00
Calophyllum.* Purple and green	3 00
Calurum.* Large rosy crimson	2 00
Calurum Rougieri.* Large flowering variety	4 00
Cardinale.* White and rich crimson, choice	2 00
Caudatum. Very large flowers, petals, 24 inches long	3 00
Chamberlainianum. Newly discovered species	3 50
Charlesworthii. Beautiful pink color	2 00
Conchiferum.* Yellow and purple	2 00
Crossianum.* Tawny yellow	2 00
Curtisii. Large purple and white flowers	3 00
Dauthieri.* Free flowering, reddish purple	2 50
Dayanum. Pale colored with dark stripes	3 00
Dominianum.* Very free growing and flowering	1 00
Grande.* Enormous flowers, 3 to 4 on a spike	2 00
Harrisianum.* Flowering several times a year	1 50
Harrisianum luteolum.* Yellow variety	4 00
Harrisianum nigrum.* Rich dark form	4 00
Harrisianum superbum.* Grand and rare form	5 00
Haynaldianum. Three to five flowers on long stems	3 00
Hirsutissimum. Very large, green and purple	2 00
Hookerae. Beautiful foliage and flowers	1 00
Insigne. Free growing and popular variety	1 00
Insigne Chantinii. White, with purple spots	3 00
Insigne maximum. Larger than the type	2 00
Josephianum.* Rare hybrid	7 50
Lawrenceanum. White and purple, striped flowers	2 00
Leeanum.* Sepal white, dotted with pink	2 00
Leeanum superbum. Beautiful form	5 00
Leucorhodum.* Grand, shell pink color, rare	5 00
Longifolium. Tawny yellow, profuse bloomer	2 00
Macropterum.* Rare hybrid. Price on application.	
Morganiae.* The finest. Price on application.	
Nitens. Yellow and white flowers	3 00
Oenanthum.* Showy, claret purple and white	2 50
Parishii. Numerous green and purple flowers	4 00
Porphyreum.* Deep rose, free flowering	2 00
Roezii. Green and rose, very floriferous	2 00
Rothschildianum. Very large and striking, scarce	7 50
Schlimii. Small, white and rosy flowers	2 50
Schroederae.* Very large, rosy crimson flowers	3 00
Sedenii.* Very floriferous, rose colored	1 00
Sedenii candidulum. Soft rose	3 00
Selligerum.* Large, brown, purple and white flowers	3 00
Spicerianum. Lovely flower, with white dorsal sepal	2 00
Superciliare.* White and purple, free grower	3 00
Stoneii. Large white and purple flowers	3 00
Superbiens (Veitchii). Fine, rare species	4 00
Venustum. Green and tawny yellow	1 00
Villosum. Shiny surface, as if varnished	2 00
Villosum superbum	5 00

Larger plants of any of the above varieties on application.
 Many other varieties. Ask for complete list.

LAELIA.

This is a lovely genus, and one of the most valuable for cut-flower purposes. Most of the species are vigorous and compact in growth, with evergreen leaves much like the Cattleyas, to which they are strongly allied, and many are of equal beauty when in bloom. They do best in baskets or pots, with a compost of fibrous peat and good drainage.

	<i>Each.</i>
Albida. White, with lilac lip	\$1 00
Anceps. Rose to rich crimson, free grower	1 00
Anceps alba. Rare white variety of the former	5 00
Arnoldiana. Rose, flowers in autumn	2 50
Autumnalis. Rich rose, large flowers	1 50
Dayana. Fine rose and crimson	2 00
Elegans. Rare natural hybrid, variable	7 50
Elegans. Choice varieties. Price on application.	
Gouldiana. Rich crimson. Price on application.	
Lindleyana. Light pink flowers	5 00
Majalis. Large rosy flowers	1 00
Perrinii. Large flower, dark lip	3 00
Purpurata. Large white, crimson lip, grand	2 50
Other varieties. Also specimen price on application.	

DENDROBIUM.

This is a very extensive as well as a magnificent genus of Orchids, with tall jointed stems, bearing racemes of handsome flowers, especially fine for cutting. Some of the varieties produce fine large showy flowers, which are delicate in color and delightfully fragrant. They grow best in baskets, and while growing should never get dry, but during rest should be kept cool and dry.

	<i>Each.</i>
Ainsworthii. Hybrid, beautiful, rosy white	\$4 50
Bensoniae. Beautiful pure white	3 00
Calceolaria. Fine large buff-colored flowers	2 00
Chrysotoxum. Rich yellow flowers	2 50
Crassinode. White rose flowered plants	2 50
Dalhousianum. Very large buff and crimson	2 50
Densiflorum. Deep yellow bunches of flowers	3 00
Devonianum. Beautiful white and pink flowers	3 50
Farmerii. Delicate lilac and yellow	3 00
Fimbriatum. Fine spikes of yellow flowers	3 00
Fimbriatum oculatum. Variety, with dark eye	5 00
Formosum giganteum. White, waxy flower, large	2 00
Heterocarpum. Fine primrose, yellow sweet	2 00
Jamesianum. Pure white, fine	2 50
Macrophyllum giganteum. Large purple flowers	2 00
Moschatum. Buff color flower in summer	2 00
Nobile. Free grower, white and pink flowers	1 00
Nobile Album. Rare. Price on application.	
Nobile South Orange variety. Rich crimson variety	3 00
Phalaenopsis Schroderae. Large rose flowers	2 00
Pierardii. Pearl white flowers	2 00
Thysiflorum. Bunches of white and yellow flowers	3 00
Wardianum. Large white flowers, tipped with pink	2 00
Other varieties and large sizes, price on application.	

We have Orchids in flower every day of the year. Call and see the beautiful Plants. Orchid cut flowers supplied.

ODONTOGLOSSUM.

This genus contains some of the choicest and most useful Orchids in cultivation. The flowers of the *Odontoglossum* are very beautiful and last a long time in perfection. Shade, moisture and cool temperature in summer are very essential to their well being. A little sun in winter is preferable, as it ripens the bulb, which is necessary to produce fine flowers. Plant in pots or baskets, in rough, fibrous peat and moss, with good drainage, and give plenty of water.

	<i>Each.</i>
Bictonense. Long spikes of lilac, brown colors	\$2 00
Citrosimum. Drooping spikes, white flowers	2 00
Crispum. White spotted, the best cool Orchid	2 00
Grande (Baby Orchid). Large, yellow, red brown	2 00
Maculatum. Yellow and brown flowers	2 00
Nebulosum. Large white lip, spotted	2 00
Rossii majus. Free grower, white and brown flowers	1 00

ONCIDIUM.

This genus comprises some very showy plants, with long arching spikes of mostly yellow, often sweet-scented flowers. They grow best in baskets and blocks, in temperate house, with plenty of air, and the resting period well marked.

	<i>Each.</i>
Altissimum. Long stems, yellow flowers	\$3 00
Cavendishianum. Yellow and brown flowers	2 00
Crispum. Fine rich brown and yellow	2 00
Oncidium flexuosum. Pure yellow, arching spikes	2 00
Oncidium Forbesii. Red-brown and yellow flowers	2 00
Oncidium St. Legerianum. Yellow and purple flowers	3 00
Ornithorhynchum. Covered with lilac, sweet flowers	1 50
Papilio (Butterfly Orchid). Large yellow and red	2 00
Sphacelatum. Long stems of yellow flowers	2 00
Splendidum. Large yellow and brown flowers	3 00
Tigrinum. Large yellow, sweet-scented species	2 00
Unguiculatum. Yellow and brown flowers	2 00
Varicosum. Large yellow flowers, arching spikes	1 00
Varicosum Rogersii. Grand variety of the former	2 00

VANDA.

This genus is composed of stately plants, with large massive foliage and fine showy flowers, and on that account should be in every collection. They do best in warm greenhouses, planted in baskets and suspended from the roof, with liberal supply of water in the growing season.

	<i>Each.</i>
Amesiana. White, with purple lip	\$5 00
Batemanii. Rich brown and yellow, rare	7 50
Coerulea. Beautiful blue flowers, fine	2 50
Dennisoniana. Ivory white flowers, rare	5 00
Sanderiana. Large and rare. Price on application.	
Suavis. Large lilac and crimson flowers	5 00
Tricolor. Fine brown and purple flowers	5 00

VARIOUS ORCHIDS.

	<i>Each.</i>
Aerides odoratum. Sweet scented, white and pink	\$2 50
Angraecum eburneum superbum. Fine variety	3 50
Angraecum Leonis. Ivory white flowers	3 00
Angraecum sesquipedale. Gigantic ivory-like flowers	7 50
Ansellia Africana. Yellow and brown, rare	7 50
Brassavola Digbyana. White flowers, very large	5 00
Brassavola glauca. Large creamy flowers	1 00
Brassia Verrucosa. Long arching spikes	2 00
Calanthe Regnerii. Beautiful variety	2 00
Calanthe Veitchii. Rich pink flowers on long stems	1 00

	<i>Each.</i>
Calanthe Veitchii, McWilliam's var. Rich color	\$3 50
Calanthe Veitchii Whitin's var. Compact spikes	3 50
Calanthe vestita. Arching spikes of white flowers	1 00
Calanthe Sandhurstiana. Fine hybrid	3 00
Chysis aurea. Yellow and brown flowers	1 50
Chysis bracetescens. White waxy flowers	1 50
Coelogyne cristata. Fine, winter flowering	1 00
Coelogyne cristata alba. White, useful, free grower	3 00
Coelogyne Dayana. Fine rose and crimson flower	3 00
Coelogyne Massangeana. Yellowish flowers	2 00
Coelogyne lentiginosa. White and yellow	3 00
Coelogyne ocellata. White, yellow markings	3 00
Cymbidium alofolium. Long spikes of brown flowers	2 00
Cymbidium eburneo Lowianum. Rare hybrid.....	10 00
Cymbidium eburneum. Large white, waxy flowers	3 00
Cymbidium giganteum. Green and brown flowers	3 00
Cymbidium Lowii. Pea green flowers on long spikes	3 00
Dendrochilum glumaceum. Spikes of white flowers	2 00
Dendrochilum glumaceum superbum. Larger spikes	7 50
Epidendrum O'Brienii. Fine hybrid	3 00
Epidendrum ciliare. White flowers	2 00
Epidendrum vitellinum majus. Rich orange red	1 00
Lycaste aromatica. Yellow, sweet scented	1 00
Lycaste cruenta. Rich yellow, free grower	2 00
Lycaste Deppei. Yellowish and white	1 00
Lycaste lasioglossa. Yellow and brown, rare	7 50
Lycaste Skinnerii. Light to deep rose, useful plant	2 00
Maxillaria picta. Yellow and brown, sweet scented	2 00
Maxillaria tenuifolia. Brownish flowers, very fine	1 00
Miltonia Clowesii. Chestnut brown, long spikes	2 00
Miltonia spectabilis. White, with rosy lip	2 00
Peristeria elata (Holy Ghost Plant). Pure white	3 00
Phaius grandifolius. Terrestrial, white and brown	1 50
Phaius maculatus. Spotted leaves, yellow	2 00
Phalaenopsis amabilis. Long stems, white flowers	5 00
Phalaenopsis grandifolia. Large white flowers	5 00
Phalaenopsis Luddemanniana. Rose and brown flowers	5 00
Phalaenopsis Schilleriana. Spikes of lilac flowers	7 50
Schomburgkia crispa. Yellowish	2 00
Schomburgkia Tibicina. Yellow and white	2 00
Sobralia macrantha. Large purple flowers, terrestrial	3 00
Sophronitis grandiflora. Bright orange red	2 00
Stanhopea Devoniensis. Rare and showy variety	5 00
Stanhopea oculata. Large fragrant flowers	2 00
Stanhopea Tigrina. Red and yellow, large	2 00
Thunia alba. White, showy flowers	2 00
Zygopetalum Mackayii. Sweet scented, free grower	2 00
Zygopetalum intermedium. Large flower	3 00
Zygopetalum crinitum. Chocolate and purple	2 00

Besides the above varieties we have in stock many choice and rare kinds; also large exhibition specimens of the above described varieties, and would be pleased to furnish special list on application. Do not purchase any Orchids before consulting us. Manda's Round Orchid Baskets and Orchid Peat and Moss of the best quality furnished.

We have frequent importations of Orchids gathered by our collectors in the tropics. If interested would be pleased to send you special offer of importations on their arrival.

SEEDS.

This important department has our careful attention, knowing the necessity of pure, good, and true seed. Instead of giving showy and highly colored packets, we will endeavor to put all that unnecessary expense into the seed, the article that the customer wishes to procure. It should never be the question with the buyer, "How cheap can I buy my seeds?" but "Where can I procure the very best of seeds?" A penny saved in the first instance may bring not only failure and disappointment, but labor wasted and a whole season lost. Yet a great deal depends on the season, soil, and attention given to the crops, and therefore we wish to draw our customers' attention to the usual disclaimer: That while we exercise the greatest care in having all seeds pure, true, and good, our seeds are sold without any warranty, expressed or implied, and without any responsibility in respect to crop. If our seeds are not accepted on these terms, they must be returned at once.

CHOICE VEGETABLE SEEDS.

This section will be found to contain all the best varieties for family use.

BEANS.

DWARF, OR SNAP BEANS.

CULTURE.—In early May, in a warm and sheltered spot, sow in drills about two inches deep and eighteen inches apart. Sow every two weeks for a succession.

	<i>Qt.</i>	<i>Pk.</i>
Best of All. Early round, fleshy pods	\$0 30	\$1 50

Small White Lima. Small, good quality	40	2 00

BEET.

CULTURE.—Sow as early as possible in the spring and every two weeks after for a succession up to the first week in July. The soil should be light and well manured. Sow in drills about fifteen inches apart, and thin from four to six inches after they are well up.

	<i>Oz.</i>	$\frac{1}{4}$ <i>lb.</i>
Dewing's Early. Fine form and flavor	\$0 10	\$0 20
Extra Early Egyptian. Very early and good	10	20
Extra Early Eclipse. Round-rooted	10	20
Early Bassano. Early, flat, light color	10	20
Edmand Blood Turnip. Very fine and tender.....	10	20
Early Blood Turnip. Productive, good quality	10	20
Long Smooth Blood Red. Fine	10	25

BEETS—MANGEL-WURZEL, SUGAR, ETC.

CULTURE.—Before planting, soil must be well plowed, eighteen inches or more. Sow in May in rows eighteen inches apart, and thin to eight inches in the rows.

	<i>Oz.</i>	$\frac{1}{4}$ <i>lb.</i>
Champion Yellow Globe. Very fine sort	\$0 10	\$0 15
Golden Tankard. Productive variety	10	15
Long Yellow. A good main crop	10	15
Mammoth Long Red. Very large strain.....	10	15

BRUSSELS SPROUTS.

CULTURE.—Sow in May and transplant in July, about twelve inches apart in the rows, which should be eighteen inches to two feet apart.

	<i>Pkt.</i>	<i>Oz.</i>
Best French, or Roseberry. Good sort	\$0 05	\$0 25
Improved Dwarf. Compact heads of fine quality	5	25

CABBAGE.

CULTURE.—Soil for cabbage should be a heavy loam. On such soil, well manured, excellent crops are sure to be grown. Sow the seed in hotbeds in February and March, or it may be sown about the middle of September and wintered over in coldframes. Transplant in spring as soon as the ground can be worked, in rows about two feet apart, and eighteen inches apart in the row.

	<i>Pkt.</i>	<i>Oz.</i>
American Drumhead. Fine for general crop	\$0 05	\$0 25
Drumhead Savoy. Winter and spring sort	5	25
Early Dwarf Savoy. The earliest Savoy	5	20
Early Jersey Wakefield. Most valuable for early.....	5	30
Early York. Early, heads solid	5	20
Early Winnigstadt. One of the best for general use....	5	20
Improved Early Summer. Fine for second-early	5	30
Premium Flat Dutch. Excellent market variety	10	30
Red Dutch. A useful sort for pickling	5	25
Selected All-Seasons. Second-early or late	5	25
Succession. Large early summer variety	5	20

CARROT.

CULTURE.—For early crops sow as soon as the ground can be worked, and for late crops in May, in rows fifteen inches apart. Thin out young plants to five inches, and keep surface open by frequent use of the hoe.

	<i>Pkt.</i>	<i>Oz.</i>	$\frac{1}{4}$ <i>lb.</i>
Altringham. Long scarlet; productive	\$0 05	\$0 15	\$0 30
Early Forcing. Tender and fine	5	15	30

Half-Long Stump-Rooted. Chantenay strain.....	5	15	30
Half-Long Stump-Rooted. Carentan	5	15	35
Half-Long Danvers. Good quality	5	15	30
Long Orange Imp. Largely grown	5	10	25

CAULIFLOWER.

CULTURE.—This is the same as cabbage, except that extra manure and plenty of water will pay upon this.

	<i>Pkt.</i>	<i>Oz.</i>
Extra Early Dwarf Erfurt. Very fine, short	\$0 50	\$6 00
Early Snowball. One of the best for forcing	25	3 00
Lenormand Short-Stem. Very large	10	75
Large Algiers. Of enormous size	10	65

CELERY.

CULTURE.—Sow in open ground as soon as it is fit to work in April. In June and July plant in rows ten to twelve inches apart, and set six inches apart in the rows. About the middle of August we begin the "earthing up" necessary for blanching. After the soil has been drawn up against the plant, it is pressed around each plant by the hand firmly enough to keep the leaves in an upright position, using care to prevent the soil from falling into the heart of the plant.

	<i>Pkt.</i>	<i>Oz.</i>
Boston Market Dwarf. Solid and crisp.....	\$0 05	\$0 25
Giant Gold Heart. A very good sort	5	25
Giant Pascal. Excellent flavor and fine keeping variety..	10	25

Moore Concord. Strong grower, large	20	1 25

GENERAL CROP.

Early Mammoth. Very productive	\$0 20	\$1 25
Stowell's Evergreen. The most popular	20	1 25

LATE.

	<i>Qt.</i>	<i>Pk.</i>
Country Gentleman. Very large ears	\$0 35	\$1 75
Egyptian. Large, and good quality	20	1 25
Late Mammoth. Large growth and ears	20	1 25
Fodder Corn. For stock	2 00	per bu.

CUCUMBER.

CULTURE.—Cucumbers succeed best in warm, sandy loam. They should not be planted in the open air until warm, settled weather; in the vicinity of New York, toward the end of May. Plant in hills about four feet apart each way. The hills should be previously prepared by mixing thoroughly with the soil in each a shovelful of well rotted manure. When all danger from insects is passed, thin out the plants, leaving four of the strongest.

	<i>Pkt.</i>	<i>Oz.</i>
Boston Pickling. A fine variety	\$0 05	\$0 10
Early Frame. Good for forcing	5	10

EGG PLANT.

CULTURE.—Sow in hotbeds very early in spring, and transplant when two inches high into small pots. Plant out about the second week in June. If planted earlier, they are liable to get checked by cool nights or wet weather. Set out plants three feet by two.

	<i>Pkt.</i>	<i>Oz.</i>
Black Pekin. Fruit blackish purple.....	\$0 10	\$0 40
Improved New York Purple. The best.....	10	50

ENDIVE.

CULTURE.—Sow in June, July, or August. When the leaves get about eight inches long, blanch by gathering in the hand and tying together near the top with string or bast. This must be done when quite dry, or they will rot. When winter approaches, lift carefully with a ball of earth to each plant, and place close together in a frame or cellar. Keep dry and give plenty of air.

	<i>Pkt.</i>	<i>Oz.</i>
Broad-Leaved Green. A sweet variety	\$0 05	\$0 20
Green Curled Winter. The standard sort	5	20

PARSLEY.

CULTURE.—Sow in early spring, in rows twelve inches apart. Thin out the plants to four inches. To preserve in winter, transplant in coldframe or light cellar.

	<i>Pkt.</i>	<i>Oz.</i>	$\frac{1}{4}$ <i>lb.</i>
Extra Curled. Standard sort	\$0 05	\$0 15	\$0 30
Extra Double Curled. Finest	5	15	30

PEAS.

CULTURE.—For first early crop sow as early as the ground can be worked, and at intervals of two weeks for succession. Sow in single or double rows two inches deep, and from three to four feet apart, according to the height of variety and strength of soil, supporting tall varieties with brush. Do not sow after the end of May, as they will be attacked by mildew. Plant extra early varieties in August, and you will get a profitable crop by fall.

EXTRA EARLY PEAS.

GRASS AND CLOVER SEEDS.

We beg to draw the special attention of our patrons to the Universal Lawn Grass Seed Mixture, which is prepared to give the best results for fine lawns; also to the cheap Pasture Grass Mixture for meadows. We would also be happy to supply grass and clover seed separate, if desired.

MANDA'S UNIVERSAL LAWN SEED MIXTURE.

This lawn grass mixture is composed entirely of the finest quality of fine-leaved dwarf-growing grasses, in such proportions as will enable it to withstand the extreme heat of our summers. The grasses which compose this mixture are extra well cleaned, so that all weeds are excluded, leaving nothing but the pure, clean seed.

We recommend four bushels to the acre. It is necessary to sow the seed very thickly to get the most pleasing result—that is a good lawn.

The best time to sow grass seed is in the spring or about the latter part of August. We prefer the spring. The success of establishing a good lawn depends much on the season and the condition of the ground at the time of sowing. A light raking in will protect the seeds greatly. Rolling, however, is at all times indispensable, and should any weeds appear, they should be eradicated.

MANDA'S UNIVERSAL MIXTURE IS AS GOOD AS ANY AND BETTER THAN MANY.

GRASS AND CLOVER, ALSO CEREALS AND AGRICULTURAL SEEDS.

We keep a complete list of the finest varieties of these seeds, unequalled for purity and cleanliness.

Parties desiring large quantities would do well to get quotations from us before ordering elsewhere.

PALM SEEDS.

Having to plant thousands of them ourselves every season, we are compelled to make large importations of these seeds yearly. They come from all quarters of the tropical world, such as New Zealand, Australia, the East and West Indies, South America, and Africa. Orders are booked beforehand, and will be filled in succession as the goods arrive. The seed is unexcelled as regards purity and germination.

EVERGREEN AND DECIDUOUS TREE AND SHRUB SEEDS.

These are also imported from all parts of the world. Owing to the difficulty and great expense involved in securing these seeds, we will not offer quantities in less bulk than will cost 25 cents and upwards.

FLOWER SEEDS.

Very extensive list of the choicest strains of Flower Seeds will be found arranged under the following headings: Specialties in Leading Florist Flowers; General Collection of Flower Seeds, embracing everything worth growing, either annual, hardy perennial, greenhouse plants, vines and climbers, ornamental fruit, everlastings, grasses, etc., arranged alphabetically.

SPECIALTIES IN LEADING FLORIST FLOWERS.

This department consists and includes all of the most important classes of plants, with their great variety, such as are or should be grown by every one.

The collections of such as Asters, Pansies, Sweet Peas, Nasturtiums, Balsams, Stock, etc., are complete, embracing every distinct and choice variety in cultivation. Under each heading we have given a short description and cultural directions for the various classes, also color of the varieties.

MANDA'S MIXTURE.

This Mixture is composed of the choicest named varieties grown, in suitable proportions, and must not be compared with the cheap and common mixture generally offered, which is composed of very few and inferior varieties.

When you want the finest assortment, be sure and order Manda's Mixture.

STOCKS.

These well-known favorites need no description, as they are indispensable to all lovers of flowers.

Their beautiful flowers, borne on graceful spikes, combined with their lasting qualities, make them excellent for cutting purposes.

Sow, as early as possible, in frames or in the open ground. When large enough, plant in small pots, so as not to disturb the roots when transplanting.

Manda's Mixture of the finest varieties, only.....	10

ASTERS.

Without doubt, taking all in all, this is one of the finest annuals we have. Its great diversity in form and color, combined with its fine qualities as a cut flower, make it a universal favorite with every one. In color it runs in shades from pure white to the deepest red, and in form has as many changes, some varieties being incurved and reflex, while others have quilled and twisted petals. It is of easy culture; sow in early spring in frame or garden; transplant in rows about a foot apart each way.

PANSIES, SHOW.

Below you will find a list of the very finest of show pansies, of incomparable size, beauty and luxuriance, especially my finest mixture.

In this mixture we have spared no pains in securing the finest strains and mixing carefully, only using those which we knew would give the best results. For size, coloring and abundance of flowers, this strain has no equal. They do best in summer in a cool, moist situation. Highly recommended for indoor culture in the winter.

	<i>Pkt.</i>
Manda's Finest Mixture, extra selected strain	\$0 50
Ordinary Mixture of standard varieties	10
Odier, extra choice large blotched flowers	25
Cassier, very large flowered, fine	25
Bugnot's superb fine strain	50
Superb Mixture of the Odier, Cassier, and Bugnot's strains	25
Trimardeau, or Giant Pansies, enormous flowers, extra	25

PANSIES, BEDDING.

These differ from the above in their flowers being smaller, but they are produced in greater profusion. They form bushy plants covered with bloom, and are better adapted for bedding, as the color of the flowers is mostly solid in this class, and they are therefore better able to stand the sun than the fancy forms of the show pansies.

	<i>Pkt.</i>
Cliveden, purple, excellent varieties for bedding	\$0 15
Cliveden, white, excellent varieties for bedding	15
Cliveden, yellow, excellent varieties for bedding	15

<i>Persicum giganteum</i> , Manda's choice mixture	50

SWEET PEAS.

This is also a great favorite in the garden. The odor, the beautiful shading, and the abundance with which it produces its flowers, combined with usefulness as a cut flower, have made it a very popular plant.

It does well planted along the side of fences, or, in fact, any place where it can climb or twine over. For general culture, sow in spring, as early as the ground can be worked, in drills four inches deep; when large enough, hoe up a little soil to them, and brush the same as ordinary garden peas.

CINERARIA.

One of the most beautiful spring flowering plants for greenhouse or conservatory decoration.

When well grown, the flowers measure about two inches across, and cover the plant with a mass of bloom. Sow in late summer, in a light composit. When large enough transplant in small pots, and shift as required. They do best when kept in a cool place, and will do well in a frame protected from the frost.

PETUNIA.

Without doubt the grandest annual we have for massing or bedding. Its gorgeous colored flowers, which are borne in such great profusion, filling the air with a pleasant aroma, make it a great favorite with all lovers of flowers. Sow in the early spring, in frame or greenhouse, and when large enough transplant in boxes or pots, planting into the open ground about the middle of May. It delights in a rich soil and a warm, sunny exposure. The double varieties come only partly true from seed.

Manda's Choicest Mixture of the above varieties	20

VERBENA.

Unrivaled in its dazzling brilliancy, the verbena is unsurpassed by no annual as a bedding plant.

From early summer until killed by frost it is literally ablaze with the most gorgeous colored flowers imaginable.

As a cut flower it is indispensable, and no garden should be without it. Of easy culture, it should be sown in open ground in May, and thin out so that each plant will have about a square foot for development.

Better results will be obtained if sown in a frame or greenhouse in early spring, and pricked off in pots or boxes before planting out. In the Southern States it takes the form of a perennial, coming up year after year of its own accord.

	<i>Pkt.</i>

POPPIES (PAPAVER).

This family comprises some of the finest gems to be found in the flower garden. The various gorgeous colored flowers are borne profusely, in early summer, on long, graceful stems, producing one of the grandest effects imaginable when planted in masses.

The annual varieties of this beautiful plant should be sown in the open ground in May. Great care must be taken when thinning out not to disturb the plants intended to remain. The herbaceous varieties should be sown in a coldframe, and pricked off in small pots, transplanting when the weather permits in the garden, where they are not likely to be disturbed. Both the Annual and Perennial varieties should not be transplanted after they reach flowering size.

Gypsophila paniculata. White, excellent for bouquets	5
Gypsophila paniculata compacta. Semi-dwarf, fine	5
Hedysarum coronarium (French Honeysuckle). Red	5
Hedysarum coronarium album. White-flowered, fine	5
Helianthus annuus (Russian Giant). Single flowers	5
Helianthus annuus (Henry Wilde). Very tall, single	5
Helianthus annuus (Primrose-colored), sulphur yellow	5
Helianthus argyrophyllus. A very ornamental plant	5
Helianthus californicus fl. pleno. Double flowers, fine	5
Helianthus globosus fistulosus fl. pl. Very large	5
Helianthus mollis grandiflorus. Perennial, very fine	10
Heliotropium. Extra choice mixed	10
Hesperis matronalis. Purple, very beautiful strain	5
Hesperis matronalis alba (Sweet Rocket). White	5
Heuchera sanguinea. Crimson, excellent for cutting	15
Humulus japonicus fol. varieg. Beautiful climber	10
Iberis. See Candytuft	5
Ice Plant (Mesembryanthemum crystallinum)	5
Impatiens Sultani hybrida. Choice greenhouse plant	15
Ipomoea. Morning Glory	5
Ipomopsis elegans (picta). Red flowered, fine.....	5
Iris Kaempferi. Extra choice mixed varieties	10
Lantana hybrida. Finest mixed	5
Lathyrus latifolius (Everlasting Pea). Red flowered.....	5
Lathyrus latifolius albus. White, beautiful variety.....	10
Lathyrus odoratus. See Sweet Peas	5
Lasiagrostis argentea. Grass with silvery panicles	5
Linaria bipartita. Fine mixed	5
Linaria Cymbalaria (Kenilworth Ivy). Beautiful	10
Linaria reticulata aureo-purpurea. Yellow and purple	5
Linum campanulatum grandifl. Yellow perennial	10
Linum flavum. Yellow flowers, fine hardy plant	5
Linum grandiflorum rubrum (Verum). Scarlet, large	5
Linum Lewisi. Blue flowers, very handsome, hardy	5
Linum perenne (Perennial Flax). Blue, very fine	5
Linum perenne album. Pure white	5
Lobelia Cardinalis (Scarlet). Splendid. Perennial	20
Lobelia Cardinalis hybrida. Perennial hybrids, choice	20
Lobelia Erinus. Crystal Palace (speciosa). Dark blue	10
Lobelia Erinus erecta. Crystal Palace (compacta). For carpet beds	10
Lunaria biennis (annua). (Honesty.) Garden plant	5
Lunaria biennis alba. Pure white, very fine	5
Lunaria biennis variegata. Green and white leaves	5
Lupinus polyphyllus. Perennial, finest mixed	5
Lupinus polyphyllus albus. Pure white flowers	5
Lupinus polyphyllus atrocoeruleus. Sky blue	5
Lupinus polyphyllus atropurpureus. Very fine	5
Lupinus. Annual. Sorts mixed	5
Lychnis chalcedonica. Scarlet, fine, perennial	5
Lychnis chalcedonica alba. Pure white variety	10

	<i>Pkt.</i>
<i>Lychnis Haageana atrosanguinea</i> . Fine	\$0 10
<i>Lychnis Haageana hybrida</i> . Choice mixed varieties	10
<i>Lychnis Viscaria splendens</i> (coccinea). Early perennial	5
<i>Malope grandiflora alba</i> . Large flowered, white	5
<i>Malope grandiflora purpurea</i> . Handsome	5
<i>Malva Crispa</i> . Curled, tall, very fine	5
<i>Malva moschata</i> . Rose, sweet scented, fine variety	5
<i>Malva moschata alba</i> . Pure white flowers, fine	10
<i>Martynia formosa annua</i> (Craniolaria fragrans)	5
<i>Martynia lutea</i> . Yellow flowers	5
<i>Martynia proboscidea</i> . Reddish white flowers, fine	5
<i>Matricaria capensis fl. pleno</i> (Feverfew). White	5
<i>Matricaria eximia fl. pleno</i> . Double, pure white	5
<i>Matricaria eximia grandifl. pl.</i> (Tom Thumb).	5
<i>Maurandia albiflora</i> . Pure white, beautiful climber	10
<i>Maurandia Barclayana</i> . Blue flowered, handsome	10
<i>Maurandia Semperflorens</i> . Reddish blue, very fine	10
<i>Melica altissima atropurpurea</i> . Very fine grass	5
<i>Mesembryanthemum crystallinum</i> . See Ice Plant.	
<i>Mesembryanthemum tricolor</i> . Bright annual	5
<i>Mimosa pudica</i> (sensitive and very interesting plant)	5
<i>Mimulus cardinalis grandifl.</i> (Perfection). Dark red	10
<i>Mimulus moschatus</i> (Musk Plant). Sweet scented	10
<i>Mimulus moschatus compactus</i> . Very fine for pots	10
<i>Mimulus tigrinus grandiflorus</i> . Most beautiful varieties	10
<i>Mirabilis Jalapa</i> . Four O'clock.....oz. 30c.	5
<i>Mirabilis longiflora</i> . White, sweet scented	5
<i>Monarda hybrida</i> . Very fine mixed	5
<i>Montbretia crocosmiaeflora</i> . Choice varieties, mixed	10
<i>Musa Ensete</i> . The dwarf banana plant	10
<i>Myosotis</i> (Forget-me-not).	5
<i>Nemesia compacta alba</i> . White flowered	5
<i>Nemesia compacta bicolor</i> . Blue and white	5
<i>Nemesia floribunda</i> . White	5
<i>Nemesia versicolor</i> . Blue, lilac and white	5
<i>Nicotiana colossea</i> . Quick growing, effective plant	15
<i>Nicotiana affinis</i> . White, sweet scented	5
<i>Nigella damascena fl. pl.</i> Blue (Devil-in-a-Bush)	5

<i>Wahlenbergia grandiflora duplex</i> . Double flowered	10
<i>Wahlenbergia grandiflora alba</i> . Large white flowers	5
<i>Wahlenbergia grandiflora alba duplex</i> . Double pretty	10
<i>Xeranthemum</i> . Everlastings	5
<i>Zinnia</i> . Showy annuals	5

CYCLAMEN PERSICUM GIGANTEUM.

FRUITS.

We have taken great care in selecting the varieties in this list, offering only such varieties as we know to be the very best, fine in quality, and prolific. Also plants that will stand the extreme changes in temperature which we have in this climate.

APPLES.

The list below contains only such varieties as have been thoroughly tested, and which possess real merit. They do well planted on any good ground, and with little care give very satisfactory results.

	<i>Each.</i>	<i>Doz.</i>
Baldwin. Winter variety, large red.....	\$0 50	\$5 00
Fall Pippin. Very large, rich yellow.....	25	2 50
Fallwater. Large and juicy.....	25	2 50
Gravenstein. Pale yellow, striped with red.....	25	2 50
Golden Russet. Fine flavored, late.....	25	2 50
Maiden's Blush. Large, yellow, blush cheek.....	25	2 50
Monmouth Pippin. Good keeper, juicy, late.....	25	2 50
Newton Pippin. American apple, late.....	50	5 00
Northern Spy. Large, good keeper, late.....	25	2 50
Red Astrachan. Large, red, crisp.....	25	2 50
Rhode Island Greening. Light green.....	25	2 50
Sweet Bough. Fine early variety.....	25	2 50
Transcendent. The finest Crab.....	25	2 50

PEARS.

Pears can be grown in almost any good soil, with little care. They generally give very satisfactory results.

	<i>Each.</i>	<i>Doz.</i>
Bartlett. Fine and juicy, summer variety.....	\$0 50	\$5 00
Beurre d'Anjou. Large and fine.....	50	5 00
Beurre Clairgeau. Fine summer.....	50	5 00
Clapp's Favorite. Pale yellow, early sort.....	50	5 00
Flemish Beauty. Very productive, extra.....	50	5 00
Kieffer. Large yellow, with russet dots.....	50	5 00
Seckel. High flavored, rich and juicy, late.....	50	5 00
Wilder. Good, vigorous kind.....	50	5 00

CHERRIES.

The best results will be obtained by planting on moderately rich, light loam or sandy soil.

	<i>Each.</i>	<i>Doz.</i>
Black Tartarian. Purplish black, one of the finest.....	\$0 50	\$5 00
Montmorency. Large and late, very productive.....	50	5 00
Napoleon. Large white, red cheek, excellent flavor.....	50	5 00
Windsor. Fine and productive.....	50	5 00

APRICOTS.

Plant on a northern exposure, so that the buds may not start so early as to be injured by late frost. Prune moderately every spring. Heavy soil is preferable.

	<i>Each.</i>	<i>Doz.</i>
All the best varieties.....	\$0 50	\$5 00

NECTARINES.

A smooth-skinned fruit, resembling the peach. Plant in light soil, and prune the young growths thoroughly every year.

	<i>Each.</i>	<i>Doz.</i>
All the best varieties.....	\$0 50	\$5 00

QUINCES.

They require a deep, rich soil. Should be manured with thoroughly rotted manure. A little coarse salt or lime sprinkled around the trees is beneficial in keeping away insects.

	<i>Each.</i>	<i>Doz.</i>
Apple or Orange. Large, yellow, productive.....	\$0 50	\$5 00
Champion. Pear-shaped, late, keeper.....	50	5 00

PLUMS.

They do best planted in a rich, heavy loam, well drained. Care must be taken, as the fruit forms, to keep from the attacks of the curculio.

	<i>Each.</i>	<i>Doz.</i>
Bradshaw. A fine sort.....	\$0 50	\$5 00
Burbank. Extra juicy	50	5 00
Coe's Golden Drop. Large yellow, late.....	50	5 00
Imperial Gage. Pale green, juicy and rich.....	50	5 00
Yellow Gage. Excellent for preserving.....	50	5 00

PEACHES.

Plant in light, rich soil. The ground should be kept free from grass or weeds. An occasional top dressing of wood ashes or slaked lime will be advantageous.

	<i>Each.</i>	<i>Doz.</i>
Alexander. Large, early and fine flavored.....	\$0 25	\$2 50
Crawford's Early. Fine yellow fleshed sort.....	25	2 50
Crawford's Late. One of the best varieties.....	25	2 50
Early York. The best of its season, large.....	25	2 50
Morris' White. A heavy and regular bearer.....	25	2 50
Mountain Rose. One of the best, early.....	25	2 50
Stump the World. Large and productive.....	25	2 50

GRAPES.

Grapes will flourish and bear abundantly in almost any good, dry soil, especially if the vines are trained on trellises.

	<i>Each.</i>	<i>Doz.</i>
Brighton. Vigorous and hardy, very rich.....	\$0 25	\$2 50
Catawba. Late keeper, musky flavor.....	20	2 00
Delaware. Small light red, juicy and sweet.....	25	2 50
Duchess. Greenish white, compact bunch.....	25	2 50
Diana. Pale red, fine late variety.....	25	2 50
Green Mountain. Large white grape.....	50	5 00
Moore's Diamond. Early, greenish white.....	50	4 00
Moore's Early. Best early, berry black.....	30	3 00
Niagara. A hardy grower, greenish white.....	25	2 50
Pocklington. Golden yellow, very large.....	25	2 50
Salem. Large, reddish brown, very sweet.....	25	2 50
Wilder. Bunch and berry large, black.....	25	2 50
Worden. Hardy, fine flavor, black.....	25	2 50

FOREIGN GRAPES.

For growing under glass, in hot or cold vinerias. One-year-old plants, \$2.50 each. Strong two-year-old vines at \$3.50 to \$5.00.

Alicante. Black, very large bunch of fine quality, late.
Barbarossa. Very large and late, black.
Black Frontignan. Bunches long, flavor rich, black.
Black Hamburg. A general favorite, large bunches, black.
Champion Hamburg. Splendid, like Black Hamburg.
Golden Chasselas. A large, handsome white grape.
Golden Champion. A superb white grape, berries large.
Golden Hamburg. Bunches large, berries juicy and sweet.
Gros Colman. Very vigorous, berries black and juicy.
Lady Downes. One of the best late black grapes.
Muscat of Alexandria. The finest white grape.
Red Chasselas. A small, early, red grape, excellent.
Royal Muscadine. One of the finest white sorts, sweet.

CURRENTS.

Plant in good soil and keep well worked and manured. There are very few fruits that will so thoroughly repay as this for good and proper treatment.

	Doz.	100.
Black Naples. Vigorous and productive.....	\$1 00	\$6 00
Cherry. Deep red, fruit large and acid.....	1 00	6 00
Fay's Prolific. Very prolific, extra large red.....	2 50	10 00
Red Dutch. Large bunches, red berries.....	1 00	6 00
Versaillese. Berries large, bright crimson.....	1 00	6 00
White Grape. The best white variety.....	1 00	6 00

BLACKBERRIES.

Plant in good soil in rows five feet apart, and plants three or four feet apart in the row. Soon after fruiting season, or early spring, cut out all the dead wood. A good top dressing of stable manure applied annually will be conducive to large crops. Keep the ground well worked and clean.

	Doz.	100.
Early Harvest. One of the earliest varieties.....	\$0 50	\$3 00
Erie. Hardy and of good quality.....	75	3 00
Kittatinny. Late, very productive, sweet.....	50	3 00
Snyder. Medium sized berries, fine quality.....	50	3 00
Wilson, Jr. The largest and best variety.....	50	3 00

GOOSEBERRIES.

They do best planted in good, rich ground, kept well worked, and free from grass and weeds. Cut out the old wood as soon as it begins to decline, and shorten all the young shoots to keep the bushes in shape.

	Each.	Doz.
Industry. Free from mildew, very prolific.....	\$0 25	\$2 50
Smith's Improved. Good, reliable variety.....	25	2 50

RASPBERRIES.

Plant in rows about five feet apart and three feet between the plants. They like good, rich soil, with plenty of manure worked into it annually. Immediately after the fruiting season, or early in the spring, cut out the old wood which bore the last crop of fruit.

	Doz.	100.
Brandywine. Large bright red, hardy.....	\$0 50	\$3 00
Cuthbert. Excellent variety, productive.....	50	3 00
Golden Queen. A new yellow variety.....	75	3 00
Gregg (Black Cap). Productive, large fine.....	50	3 00
Marlboro. Very hardy, vigorous.....	50	3 00
Souhegan, or Tyler Cap. Productive.....	50	3 00
Turner. Very productive variety.....	50	3 00

STRAWBERRIES.

Ready in August and September. Pot plants, \$3.50 per 100.
See Bulb Catalogue.

Special prices given on large quantities.

Trained fruit trees and fruit trees for pot culture or any other special purpose. Prices given on application.

MANDA'S NEW ROUND ORCHID BASKETS.

	<i>Doz.</i>
4 inch,.....	\$1 65
5 "	2 00
6 "	2 25
7 "	3 00
8 "	3 50
10 "	4 50
12 "	5 00

The above illustration shows how even a small Orchid plant thrives in this style of basket. The roots, although coming over the sides, cling closely and turn in again, showing that this basket comes nearer the natural conditions than the square ones, where the roots hang down. This basket is made of best oak wood and copper wire.

MATERIALS FOR ORCHID CULTURE.

	<i>Per Bbl.</i>
Fibrous Peat, picked, ready for use	\$4 50
" " " as collected	2 75
Sphagnum Moss, picked	4 50
" " " as collected	2 75

FLOWER POTS AND SEED PANS, STANDARD MAKE, AT POTTERY PRICES.

INSECTICIDES (Insect Destroyers).

	<i>Per Pint.</i>
Fir Tree Oil	\$0 75
Nicotine	<i>Per Bot.</i> 1 50

SHEEP MANURE.

Pure and unadulterated, natural droppings direct from the sheep ranches. This should not be compared with the refuse from abattoirs which many houses offer, and contains all sorts of inferior matter. Price, put up in barrels, \$1.75 per hundred pounds.

PURE COARSE BONE.

The only safe bone to buy; contains no injurious chemicals; \$2.25 per 100 lbs.; \$35.00 per ton.

All Garden Tools and Requisites at market prices.
All Horticultural Books and Papers at publishers' prices.

Few of the many Medals won at Exhibitions, besides over 500 Diplomas and Money Prizes.
